

GUIDE TO CLOSING TICKETS IN EFEEEDOR PATIENT EXPERIENCE MANAGEMENT (PXM) SOFTWARE

Efeedor's PXM simplifies patient experience management for healthcare organizations.

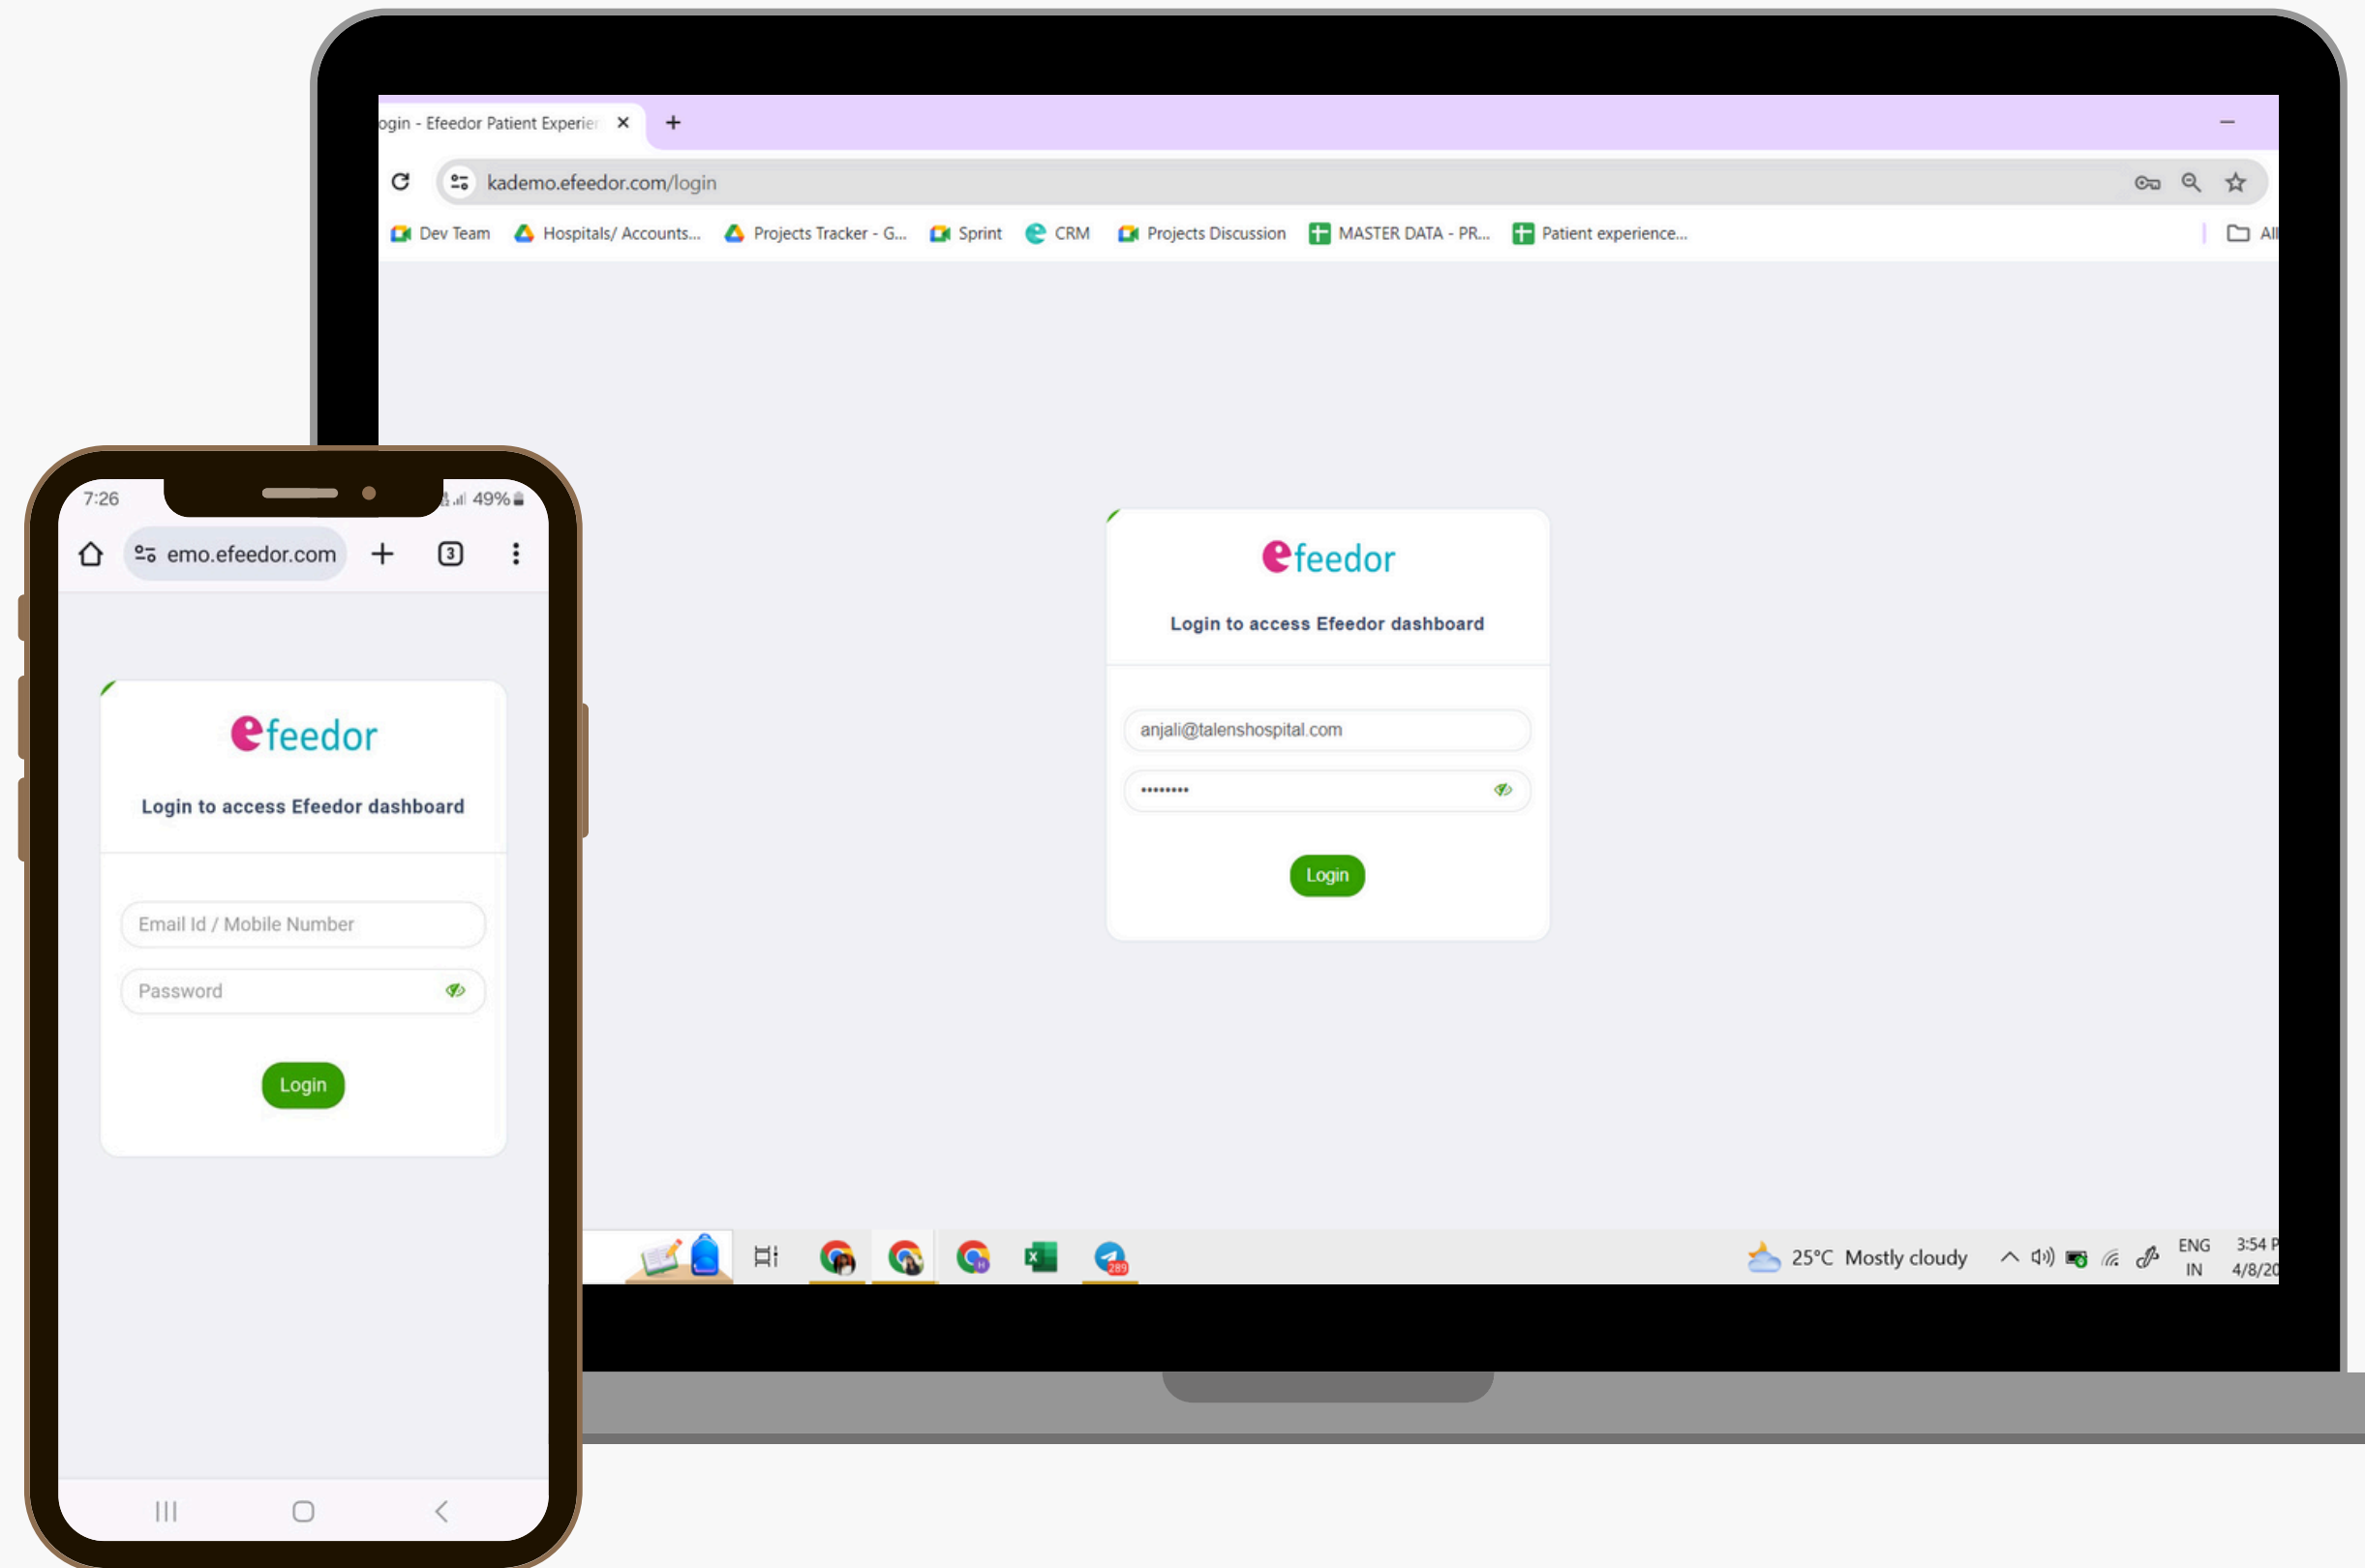

This manual helps hospital department heads efficiently handle and resolve department-specific concerns.

LOGIN TO EFEEEDOR ACCOUNT

As the first step, log in to your Efeedor account using your official email address or mobile number as your username and the provided password.

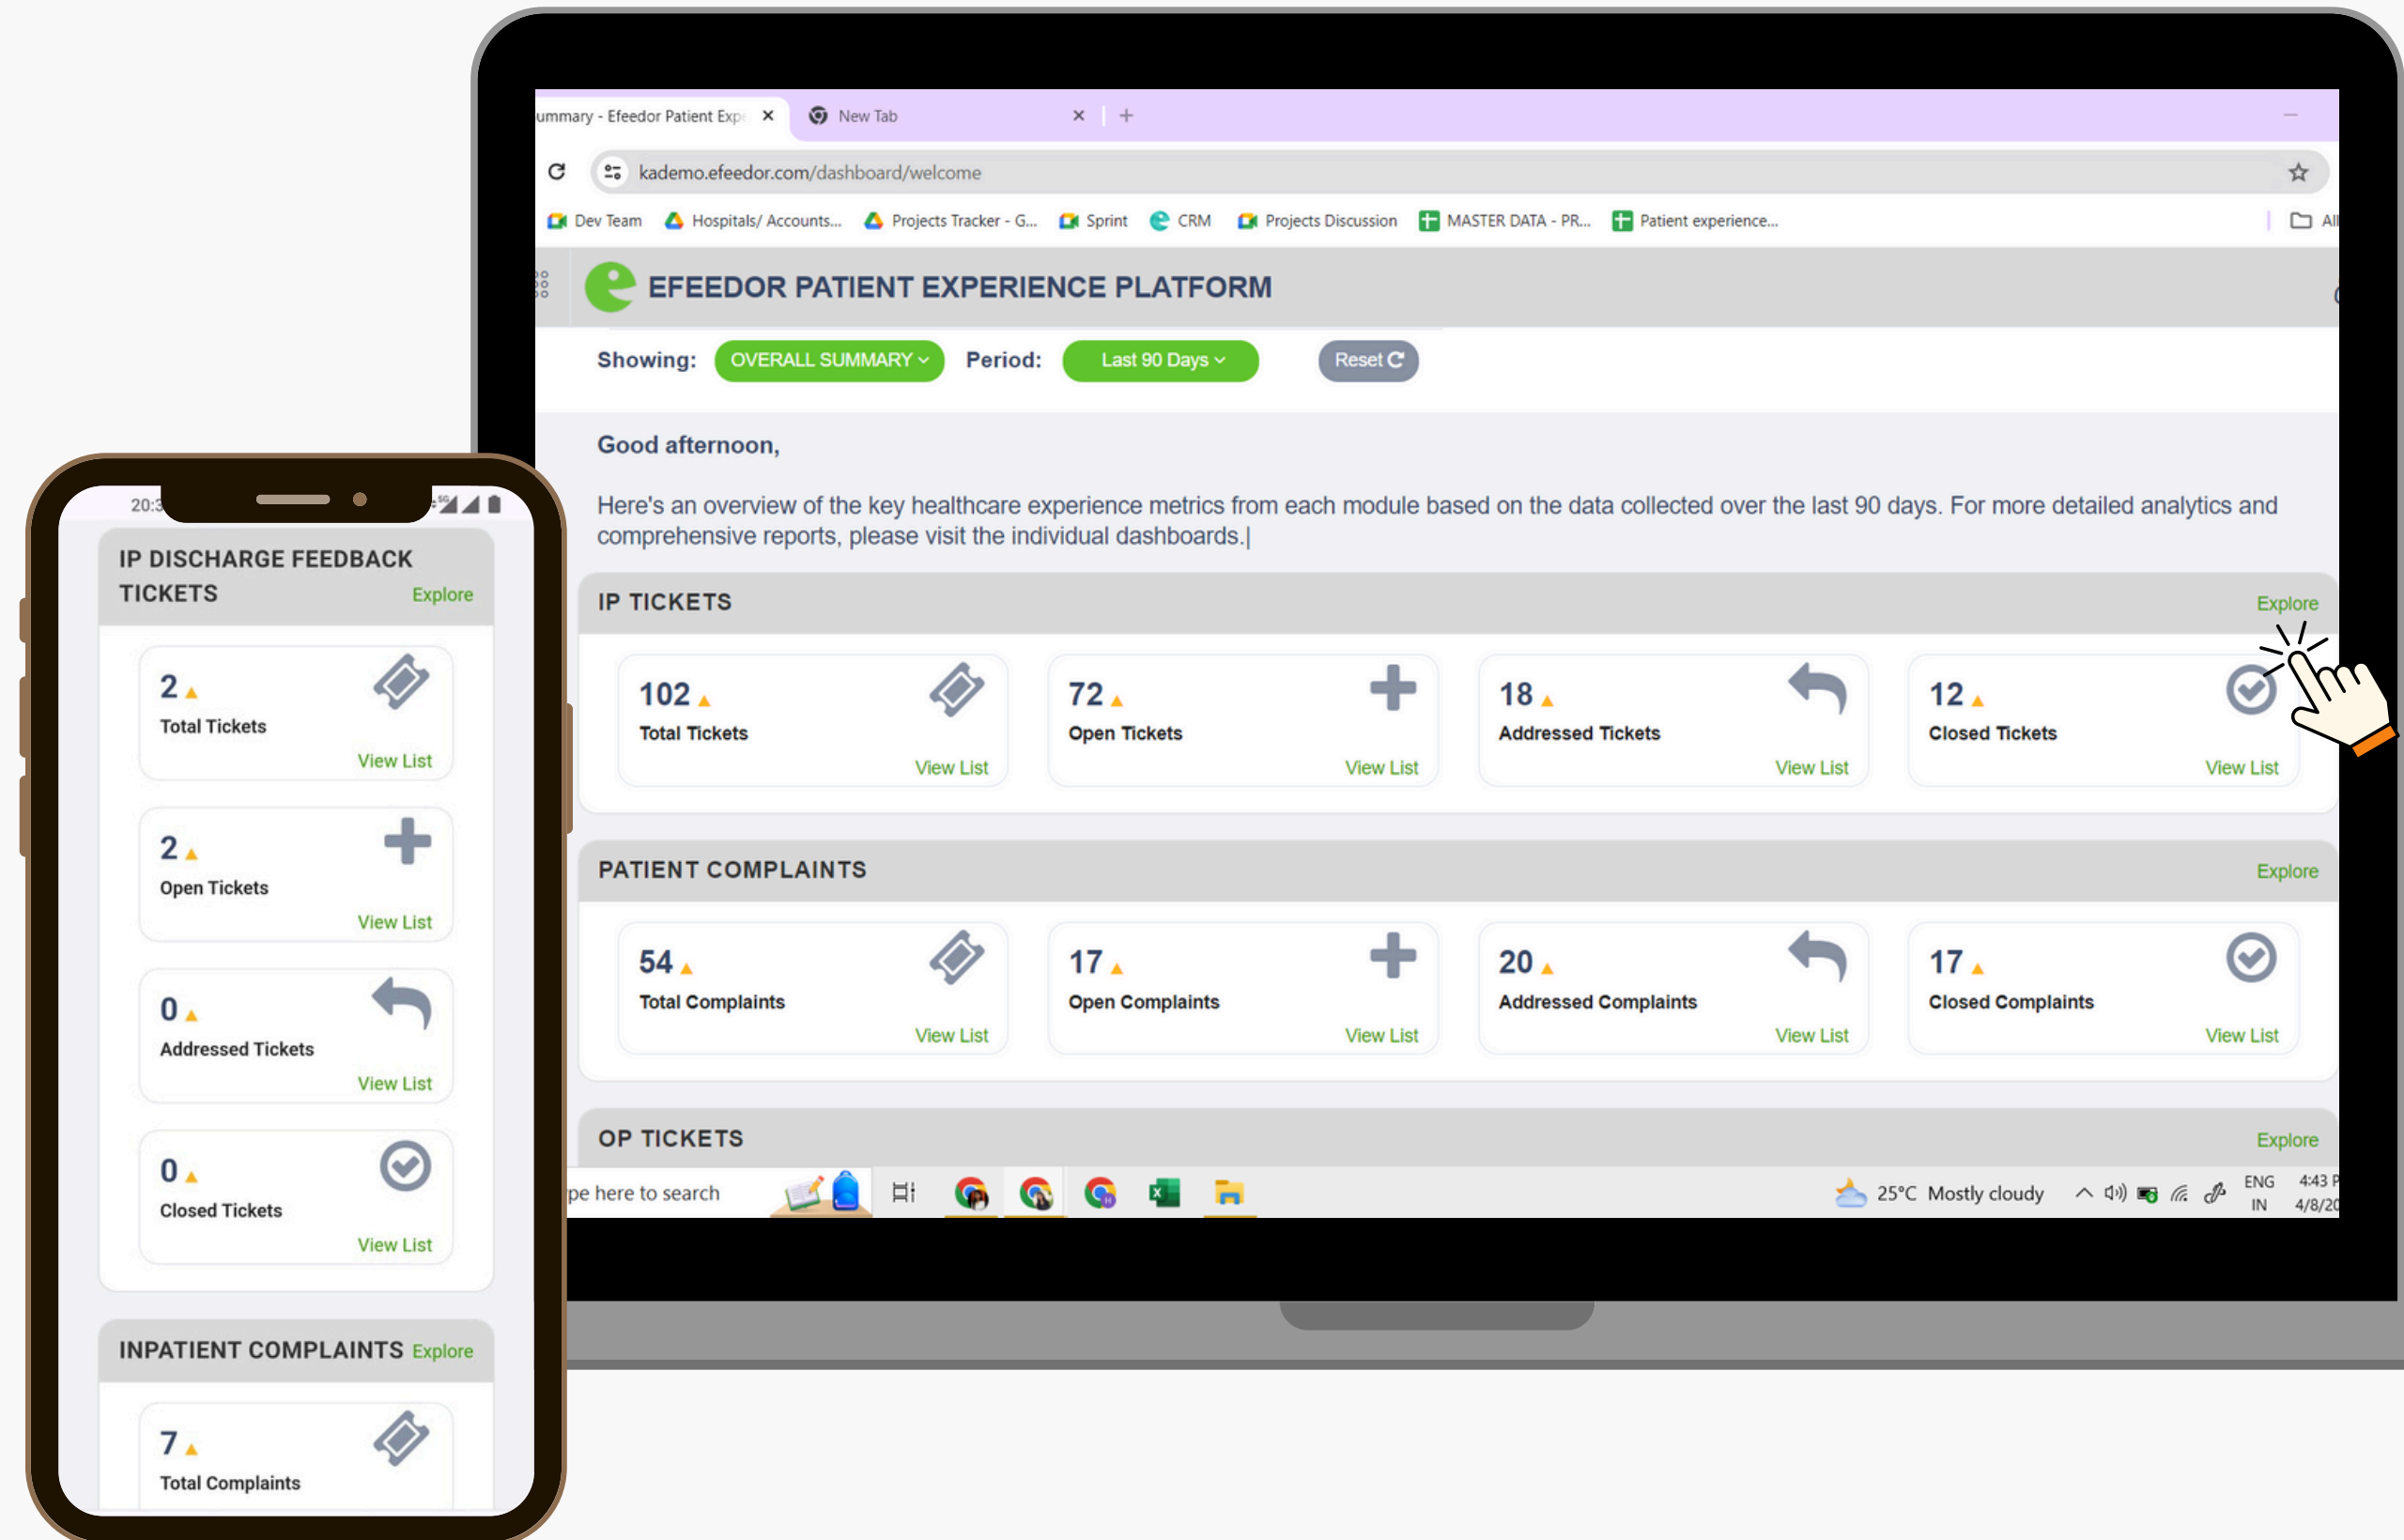

OVERALL SUMMARY DASHBOARD

The initial page shows a dashboard with all tickets received across Efeedor's modules for your department, including feedback, complaints, and service requests.

Use the period filters dropdown at the top to filter data by time period.

Click the "Explore" button to access individual modules and take necessary actions.

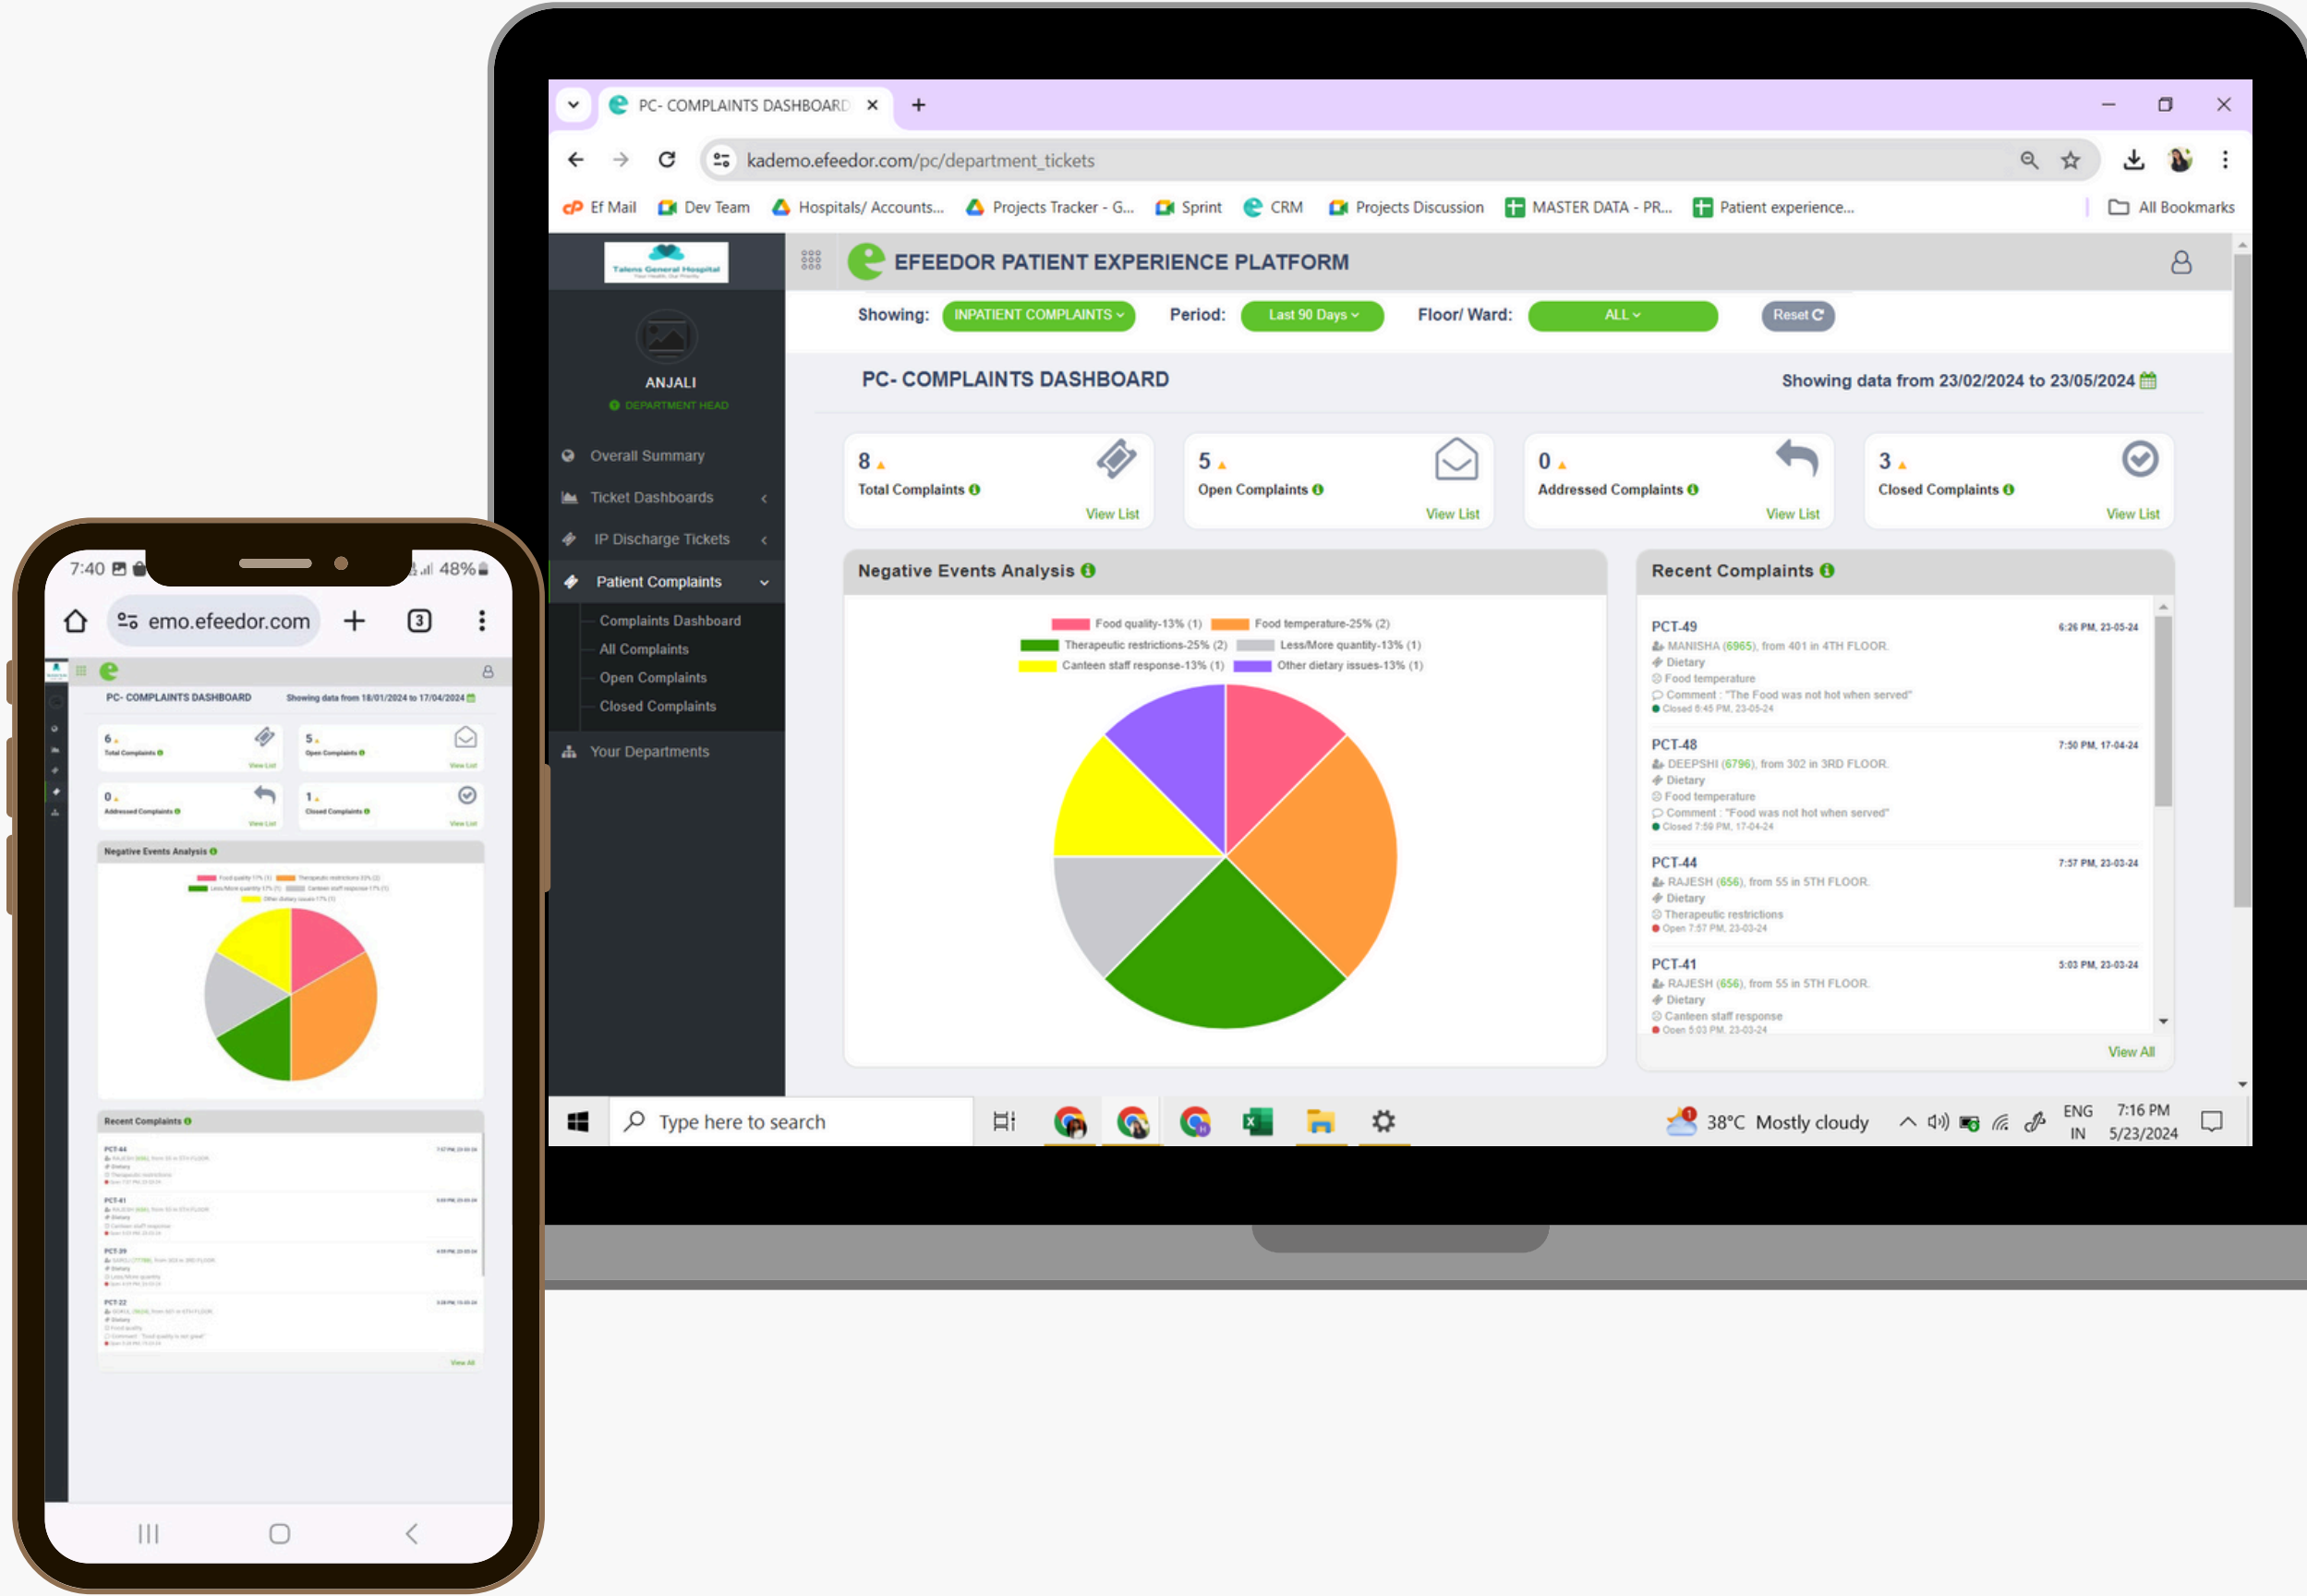

TICKETS DASHBOARD

The module dashboard provides a brief analysis of the number of tickets received, open, addressed, and pending closure within your department.

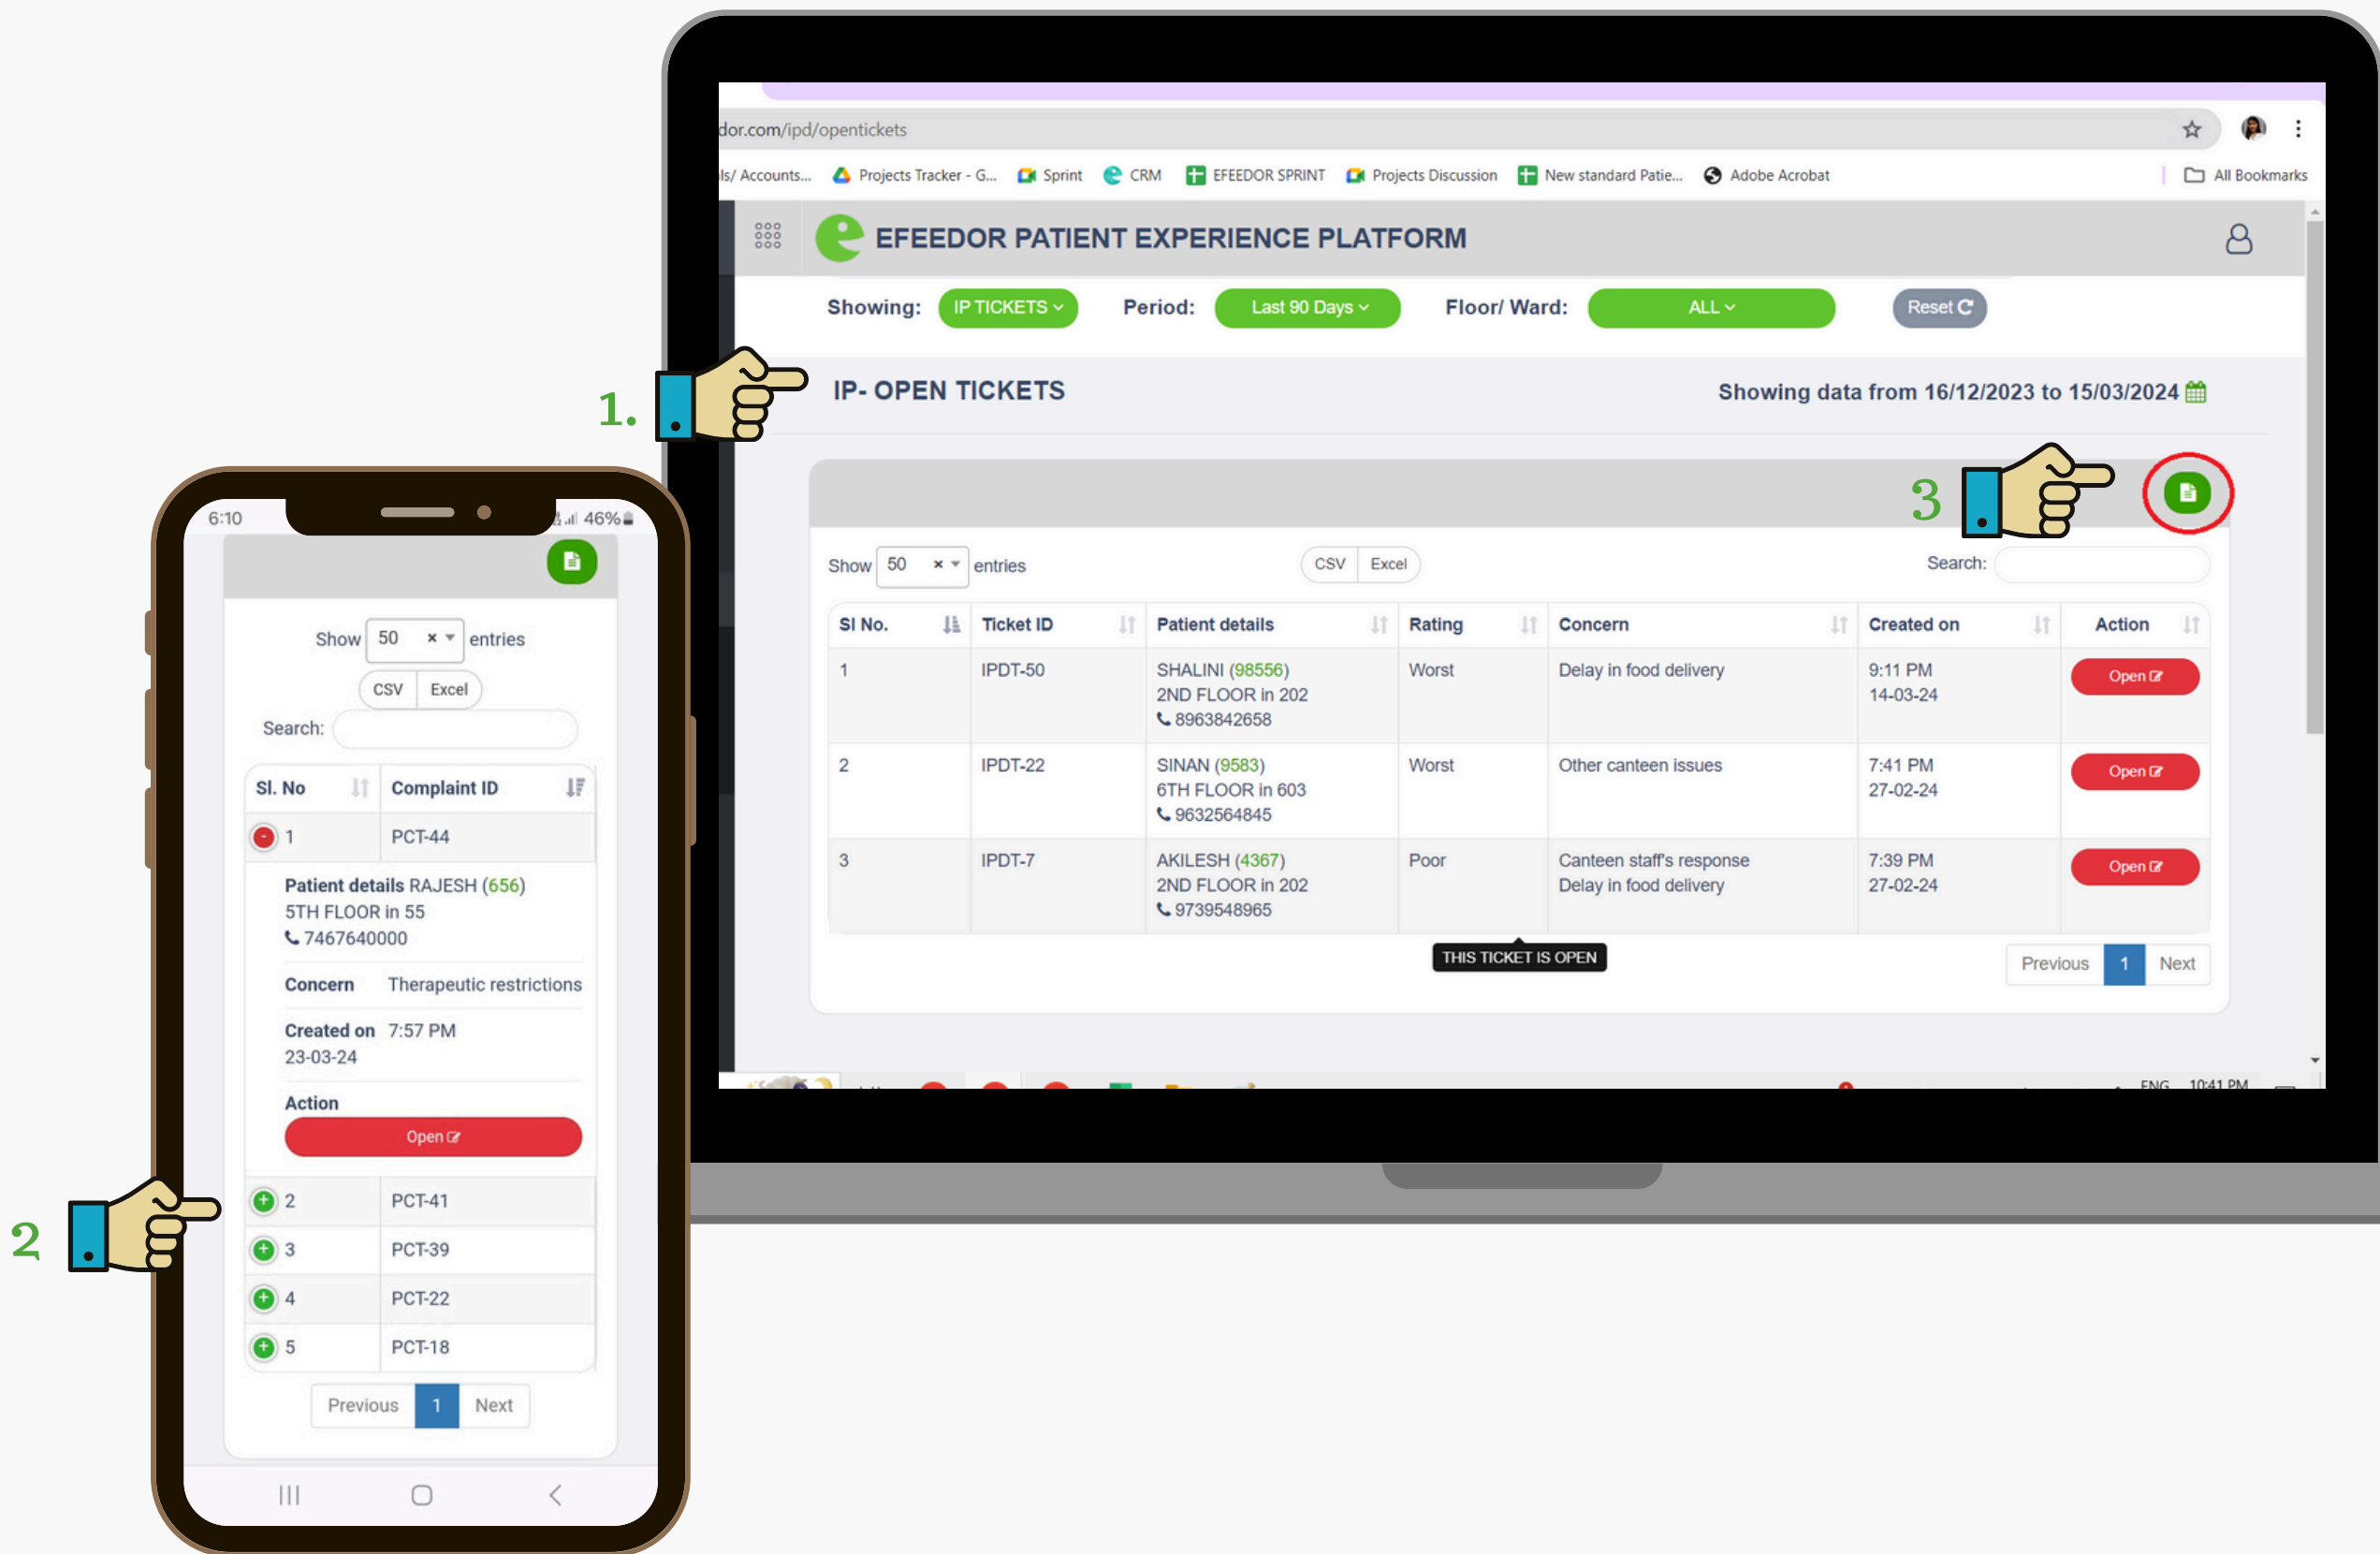

Click on either 'Total Tickets' or 'Open Tickets' to access the list of tickets awaiting your attention or closure.

TICKETS LIST PAGE

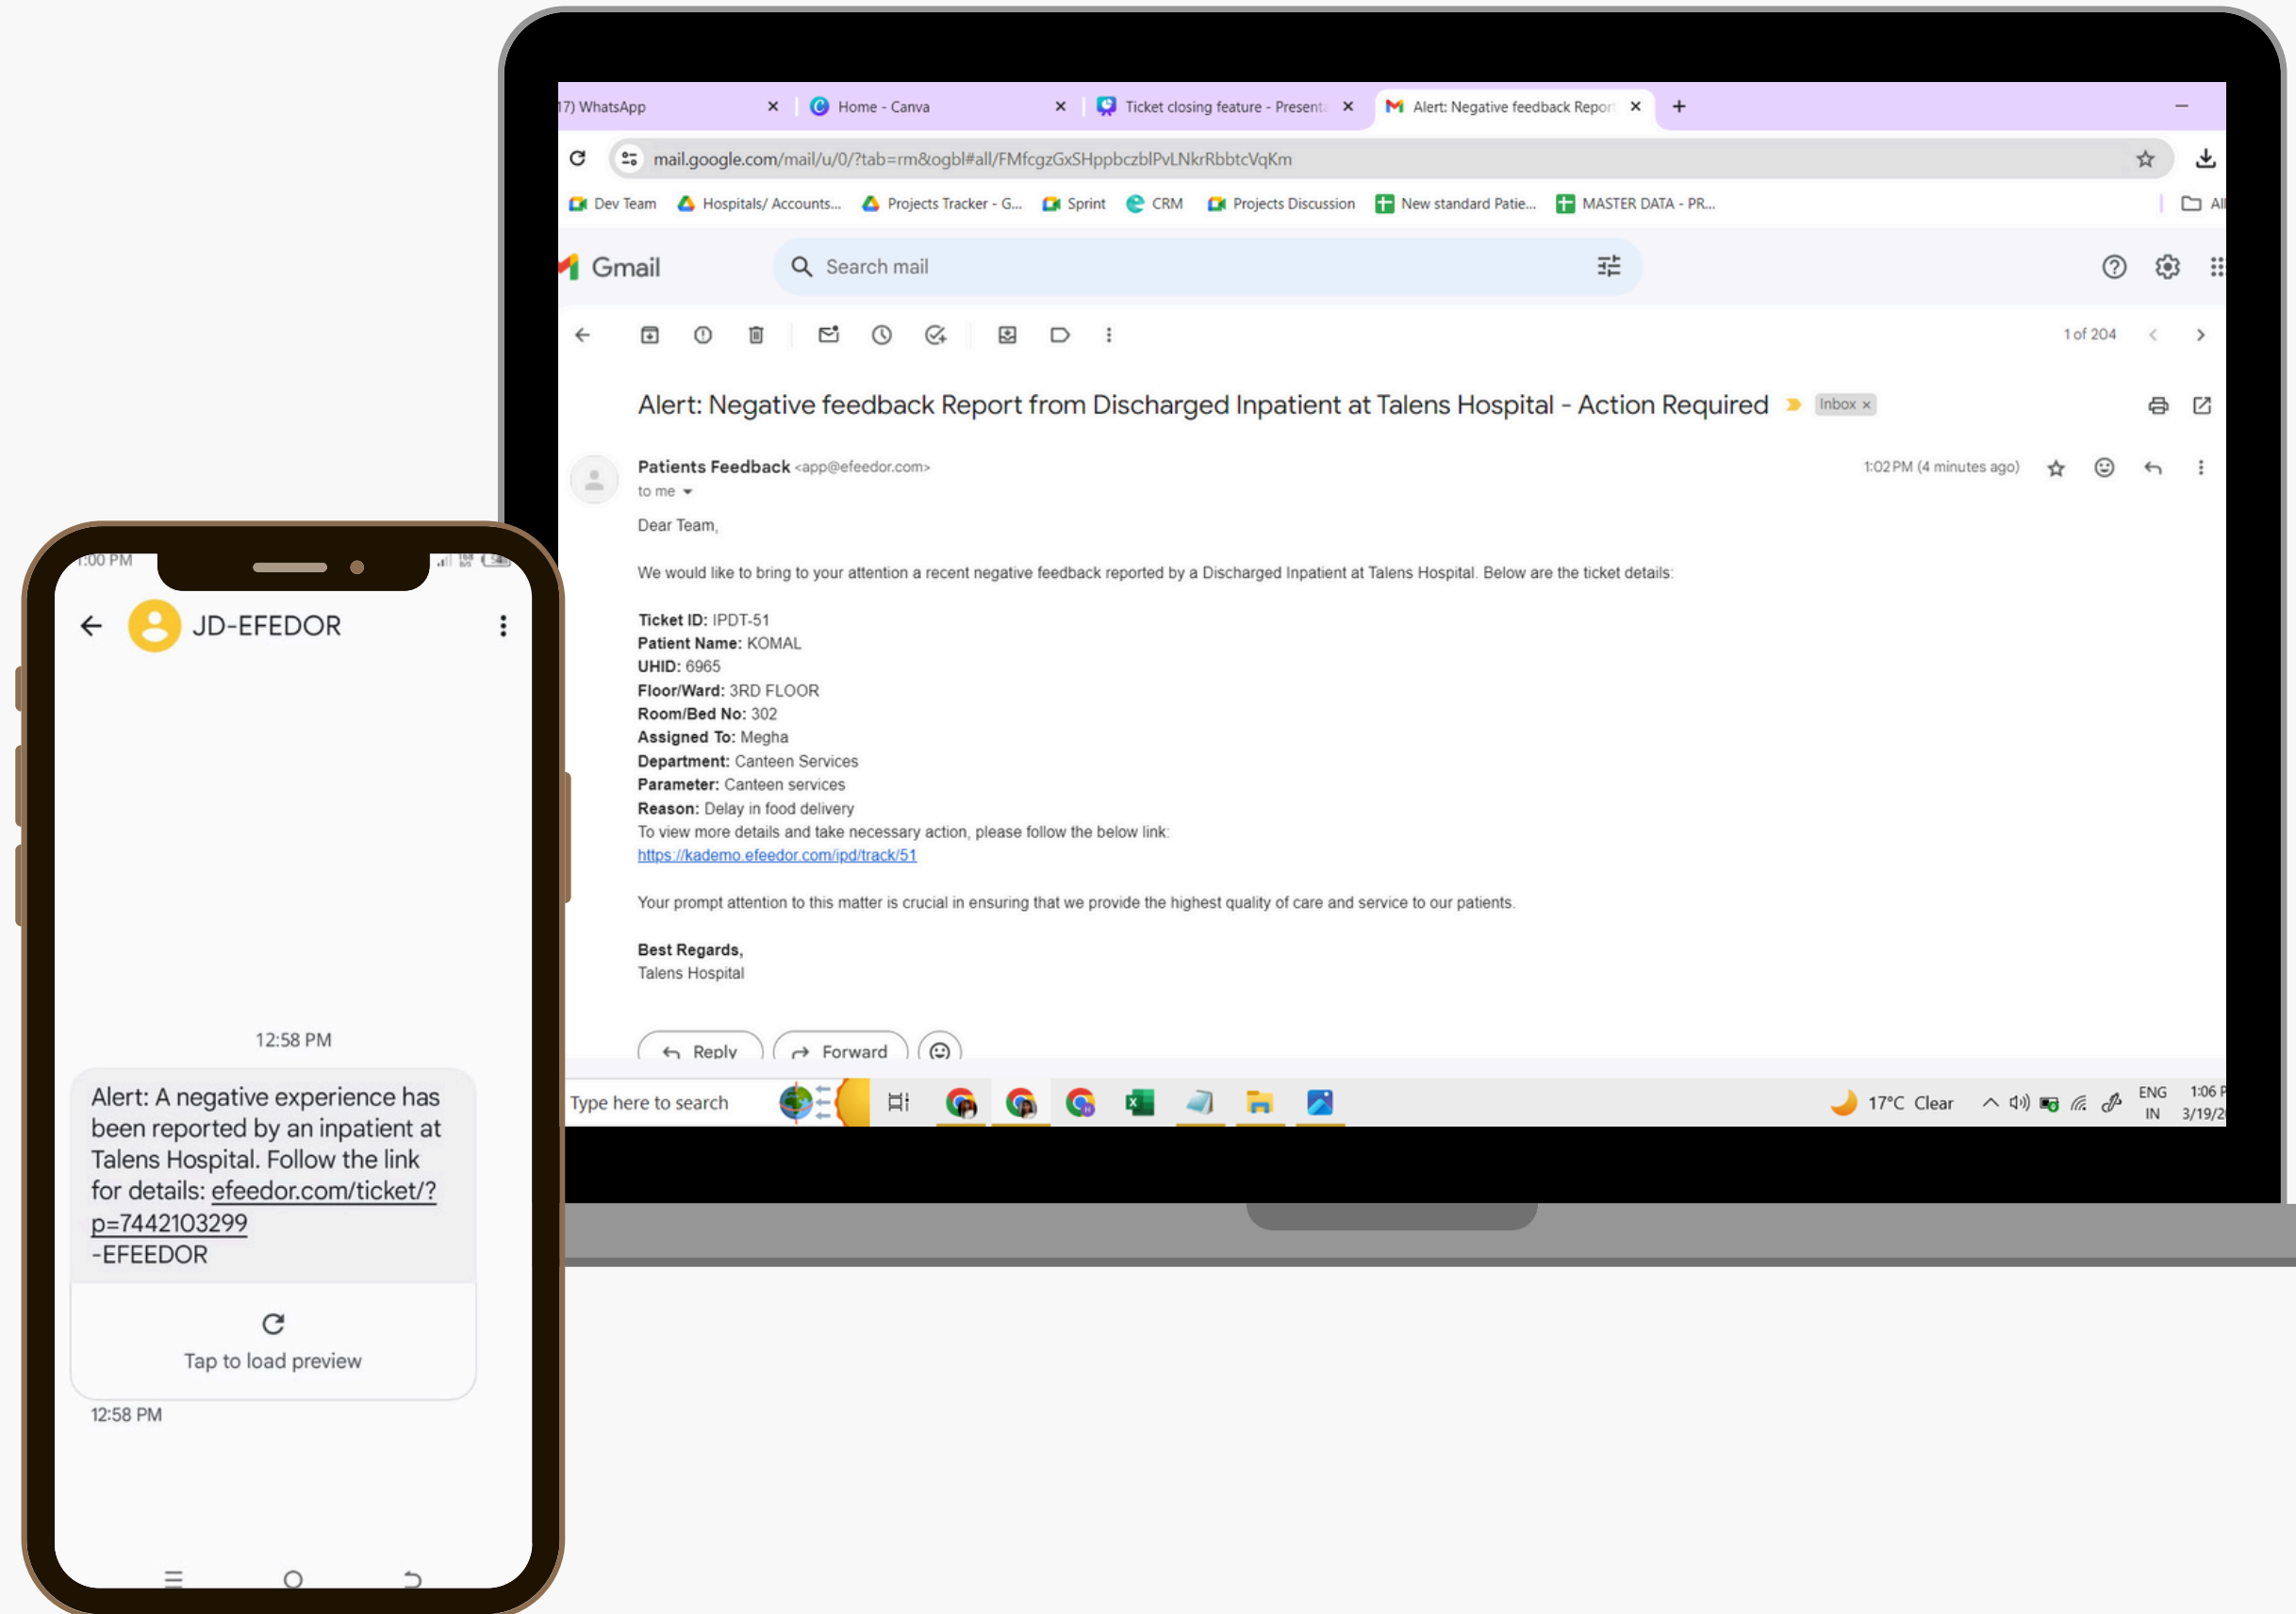

1. This page lists the tickets along with their respective statuses. Click on the 'Open' button for each ticket to update its status to 'Addressed' or 'Closed'.
2. If you are not able to see the complete details of the ticket, click on the green plus icon to elaborate the ticket detail.
3. Click the green download button above the ticket list to download the list in Excel format.

SMS & EMAIL ALERT FOR NEGATIVE RATING

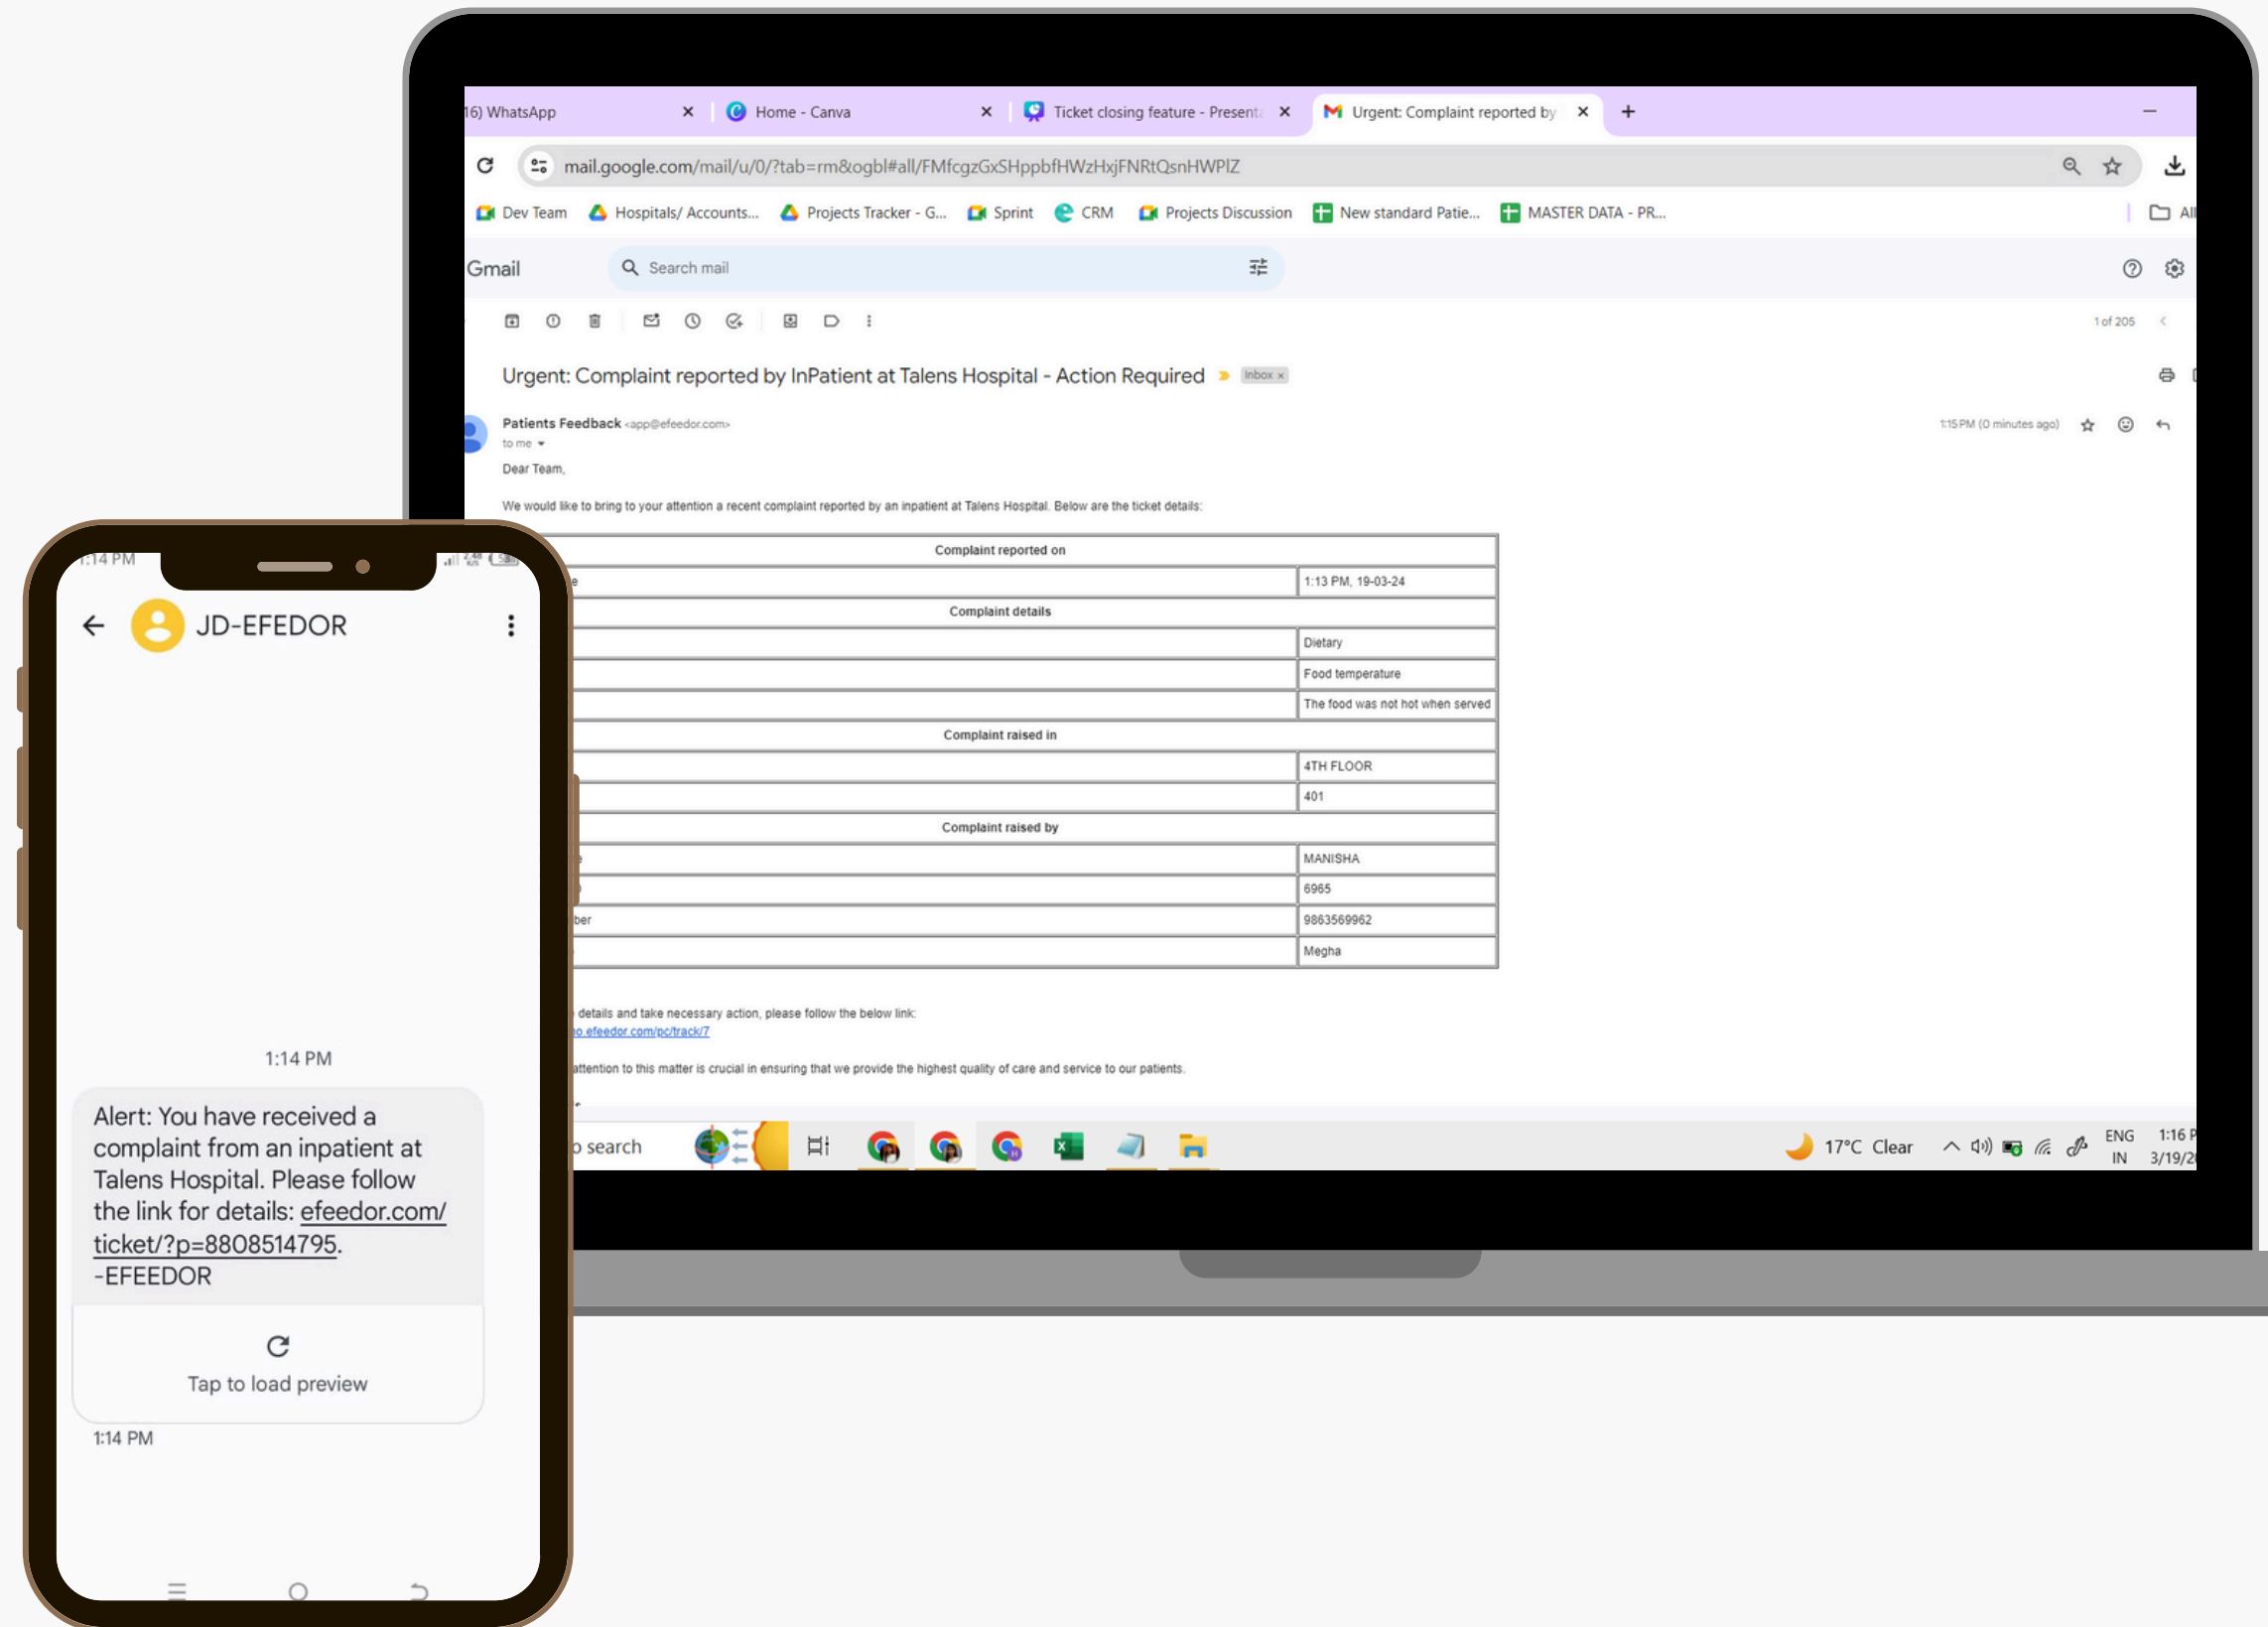

For every negative feedback rating received in your department, you will receive an SMS and email containing a link to view the respective negative ratings generated as tickets.

SMS & EMAIL ALERT FOR COMPLAINTS & REQUESTS

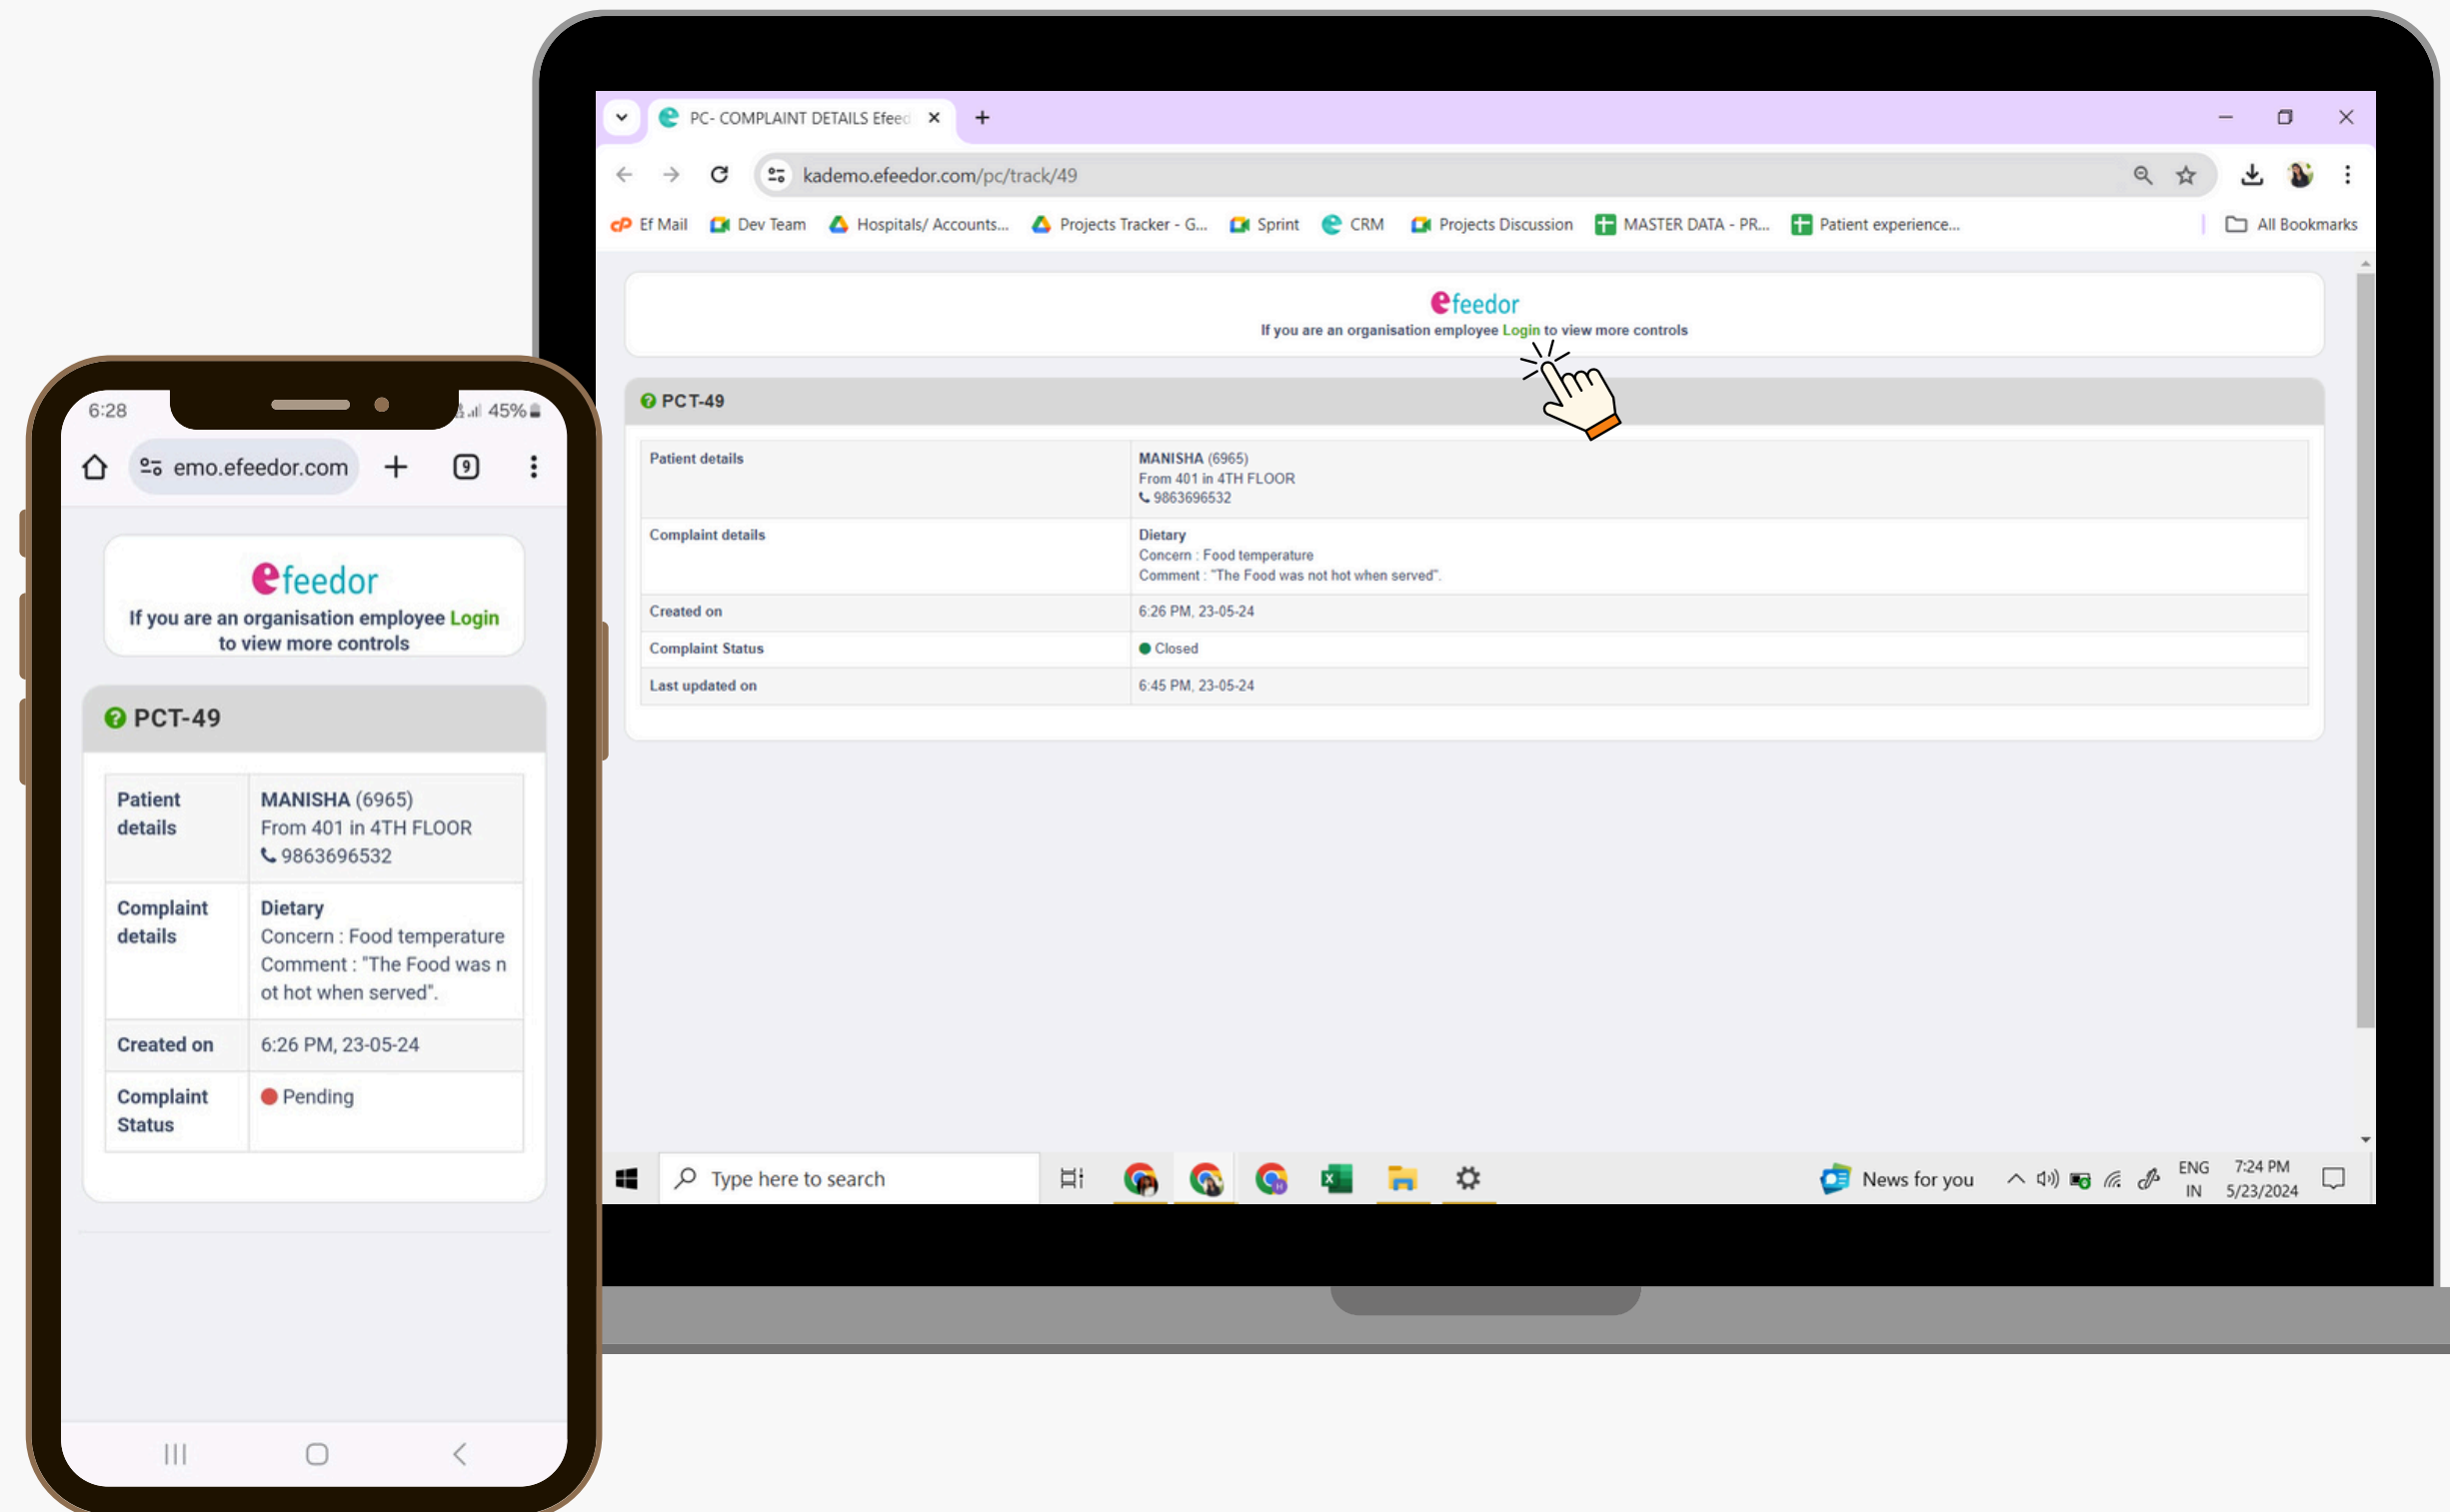

For every complaint and request received for your department, you will receive an SMS and email containing a link to view the respective complaints and requests generated as tickets.

TICKET DETAIL PAGE

The ticket details page provides comprehensive information such as the time of the ticket, patient details, concern details, assigned personnel, current status, and more.

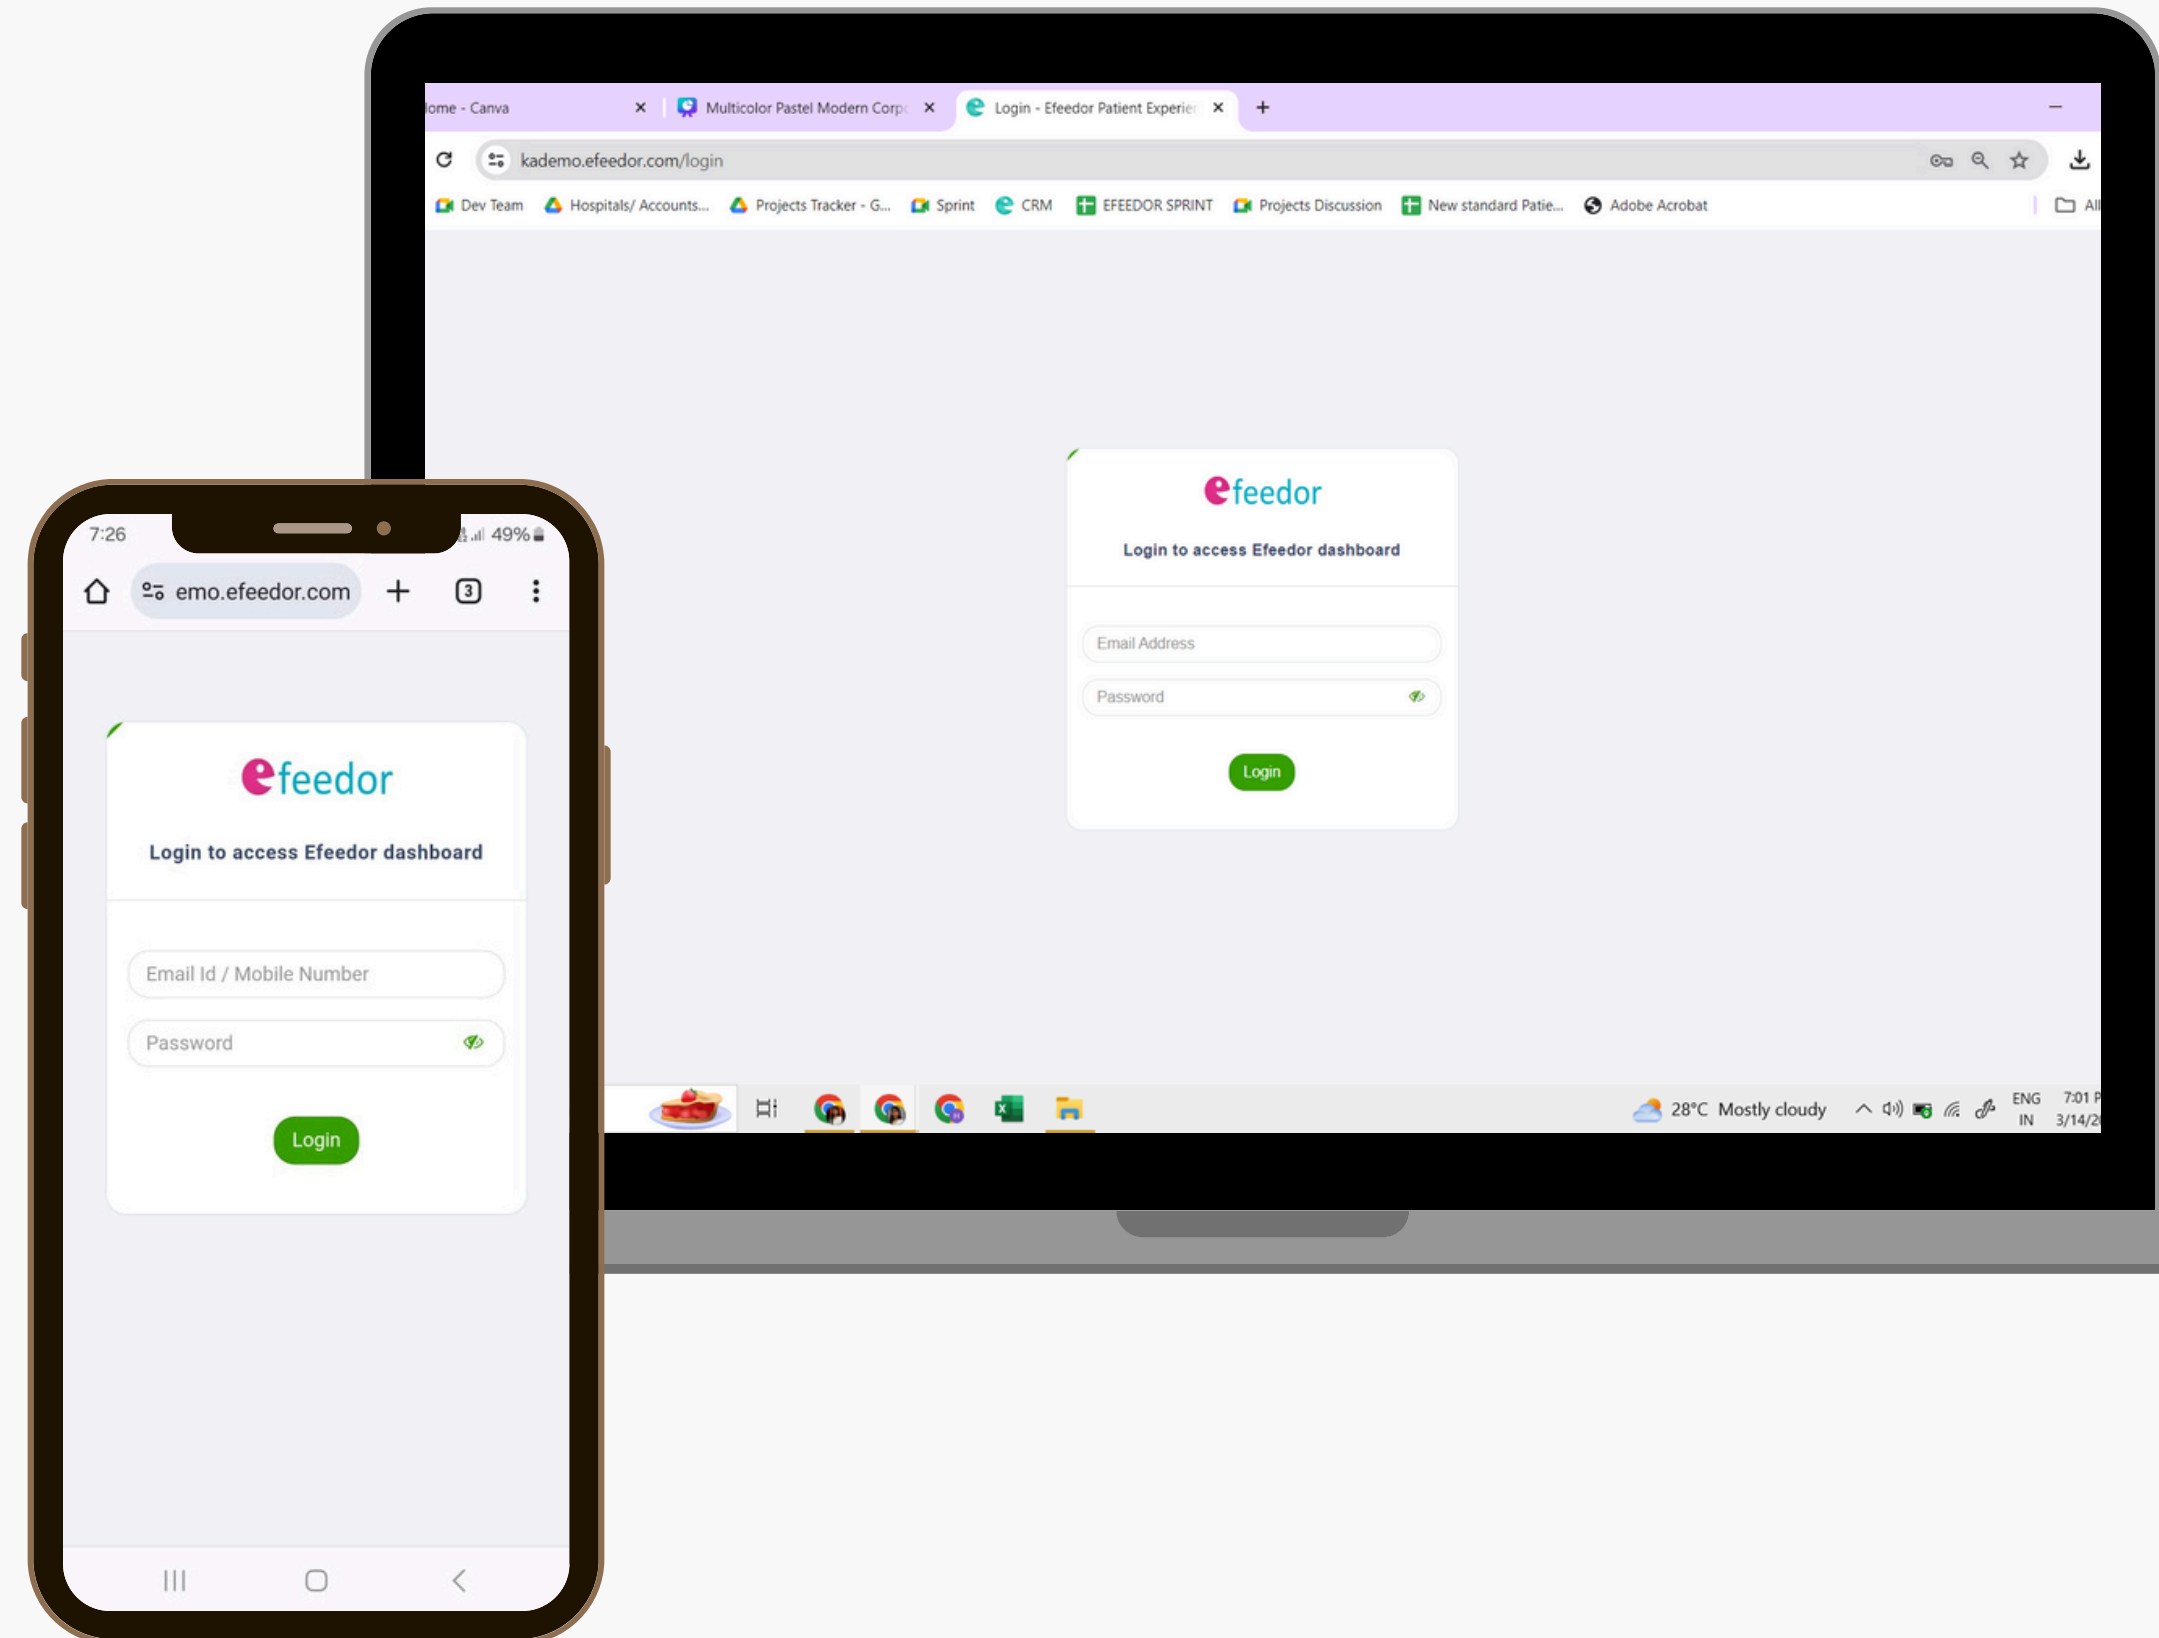

To take action on the ticket, click on the green login link displayed above the ticket details.

LOGIN PAGE

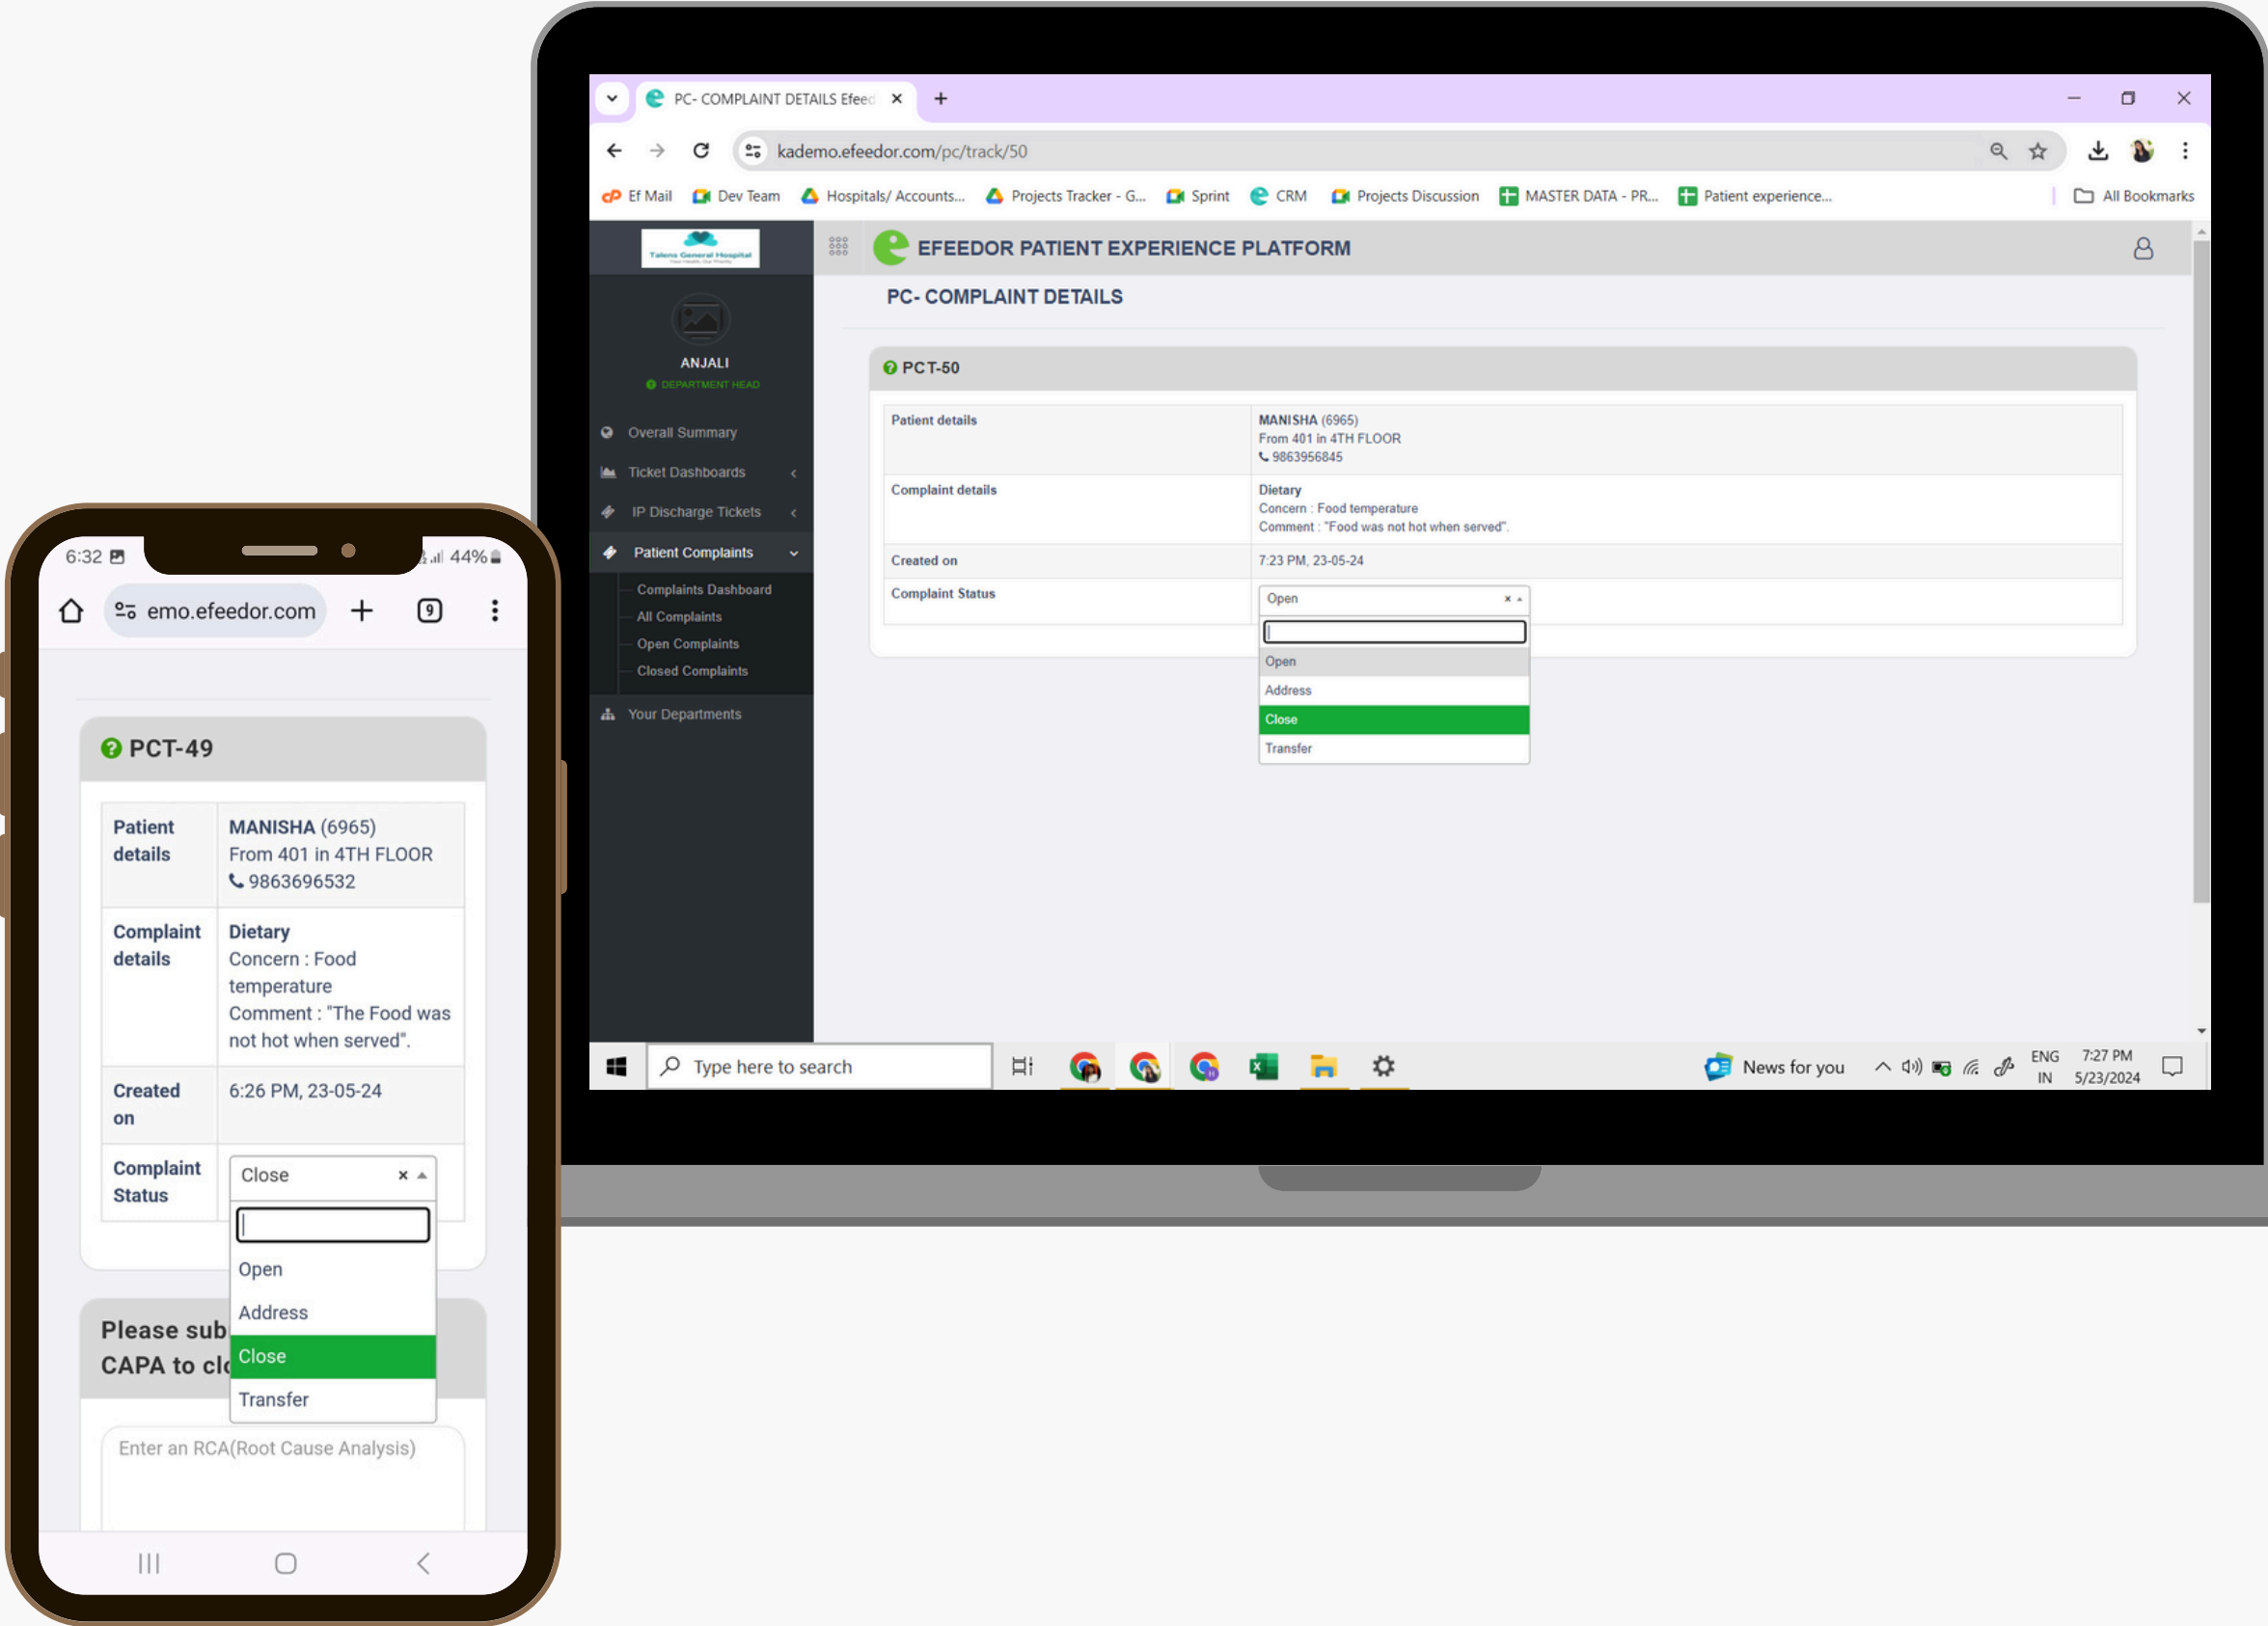

Once the login page is displayed, log in with your credentials to take action on the ticket.

TAKING ACTIONS ON THE TICKET

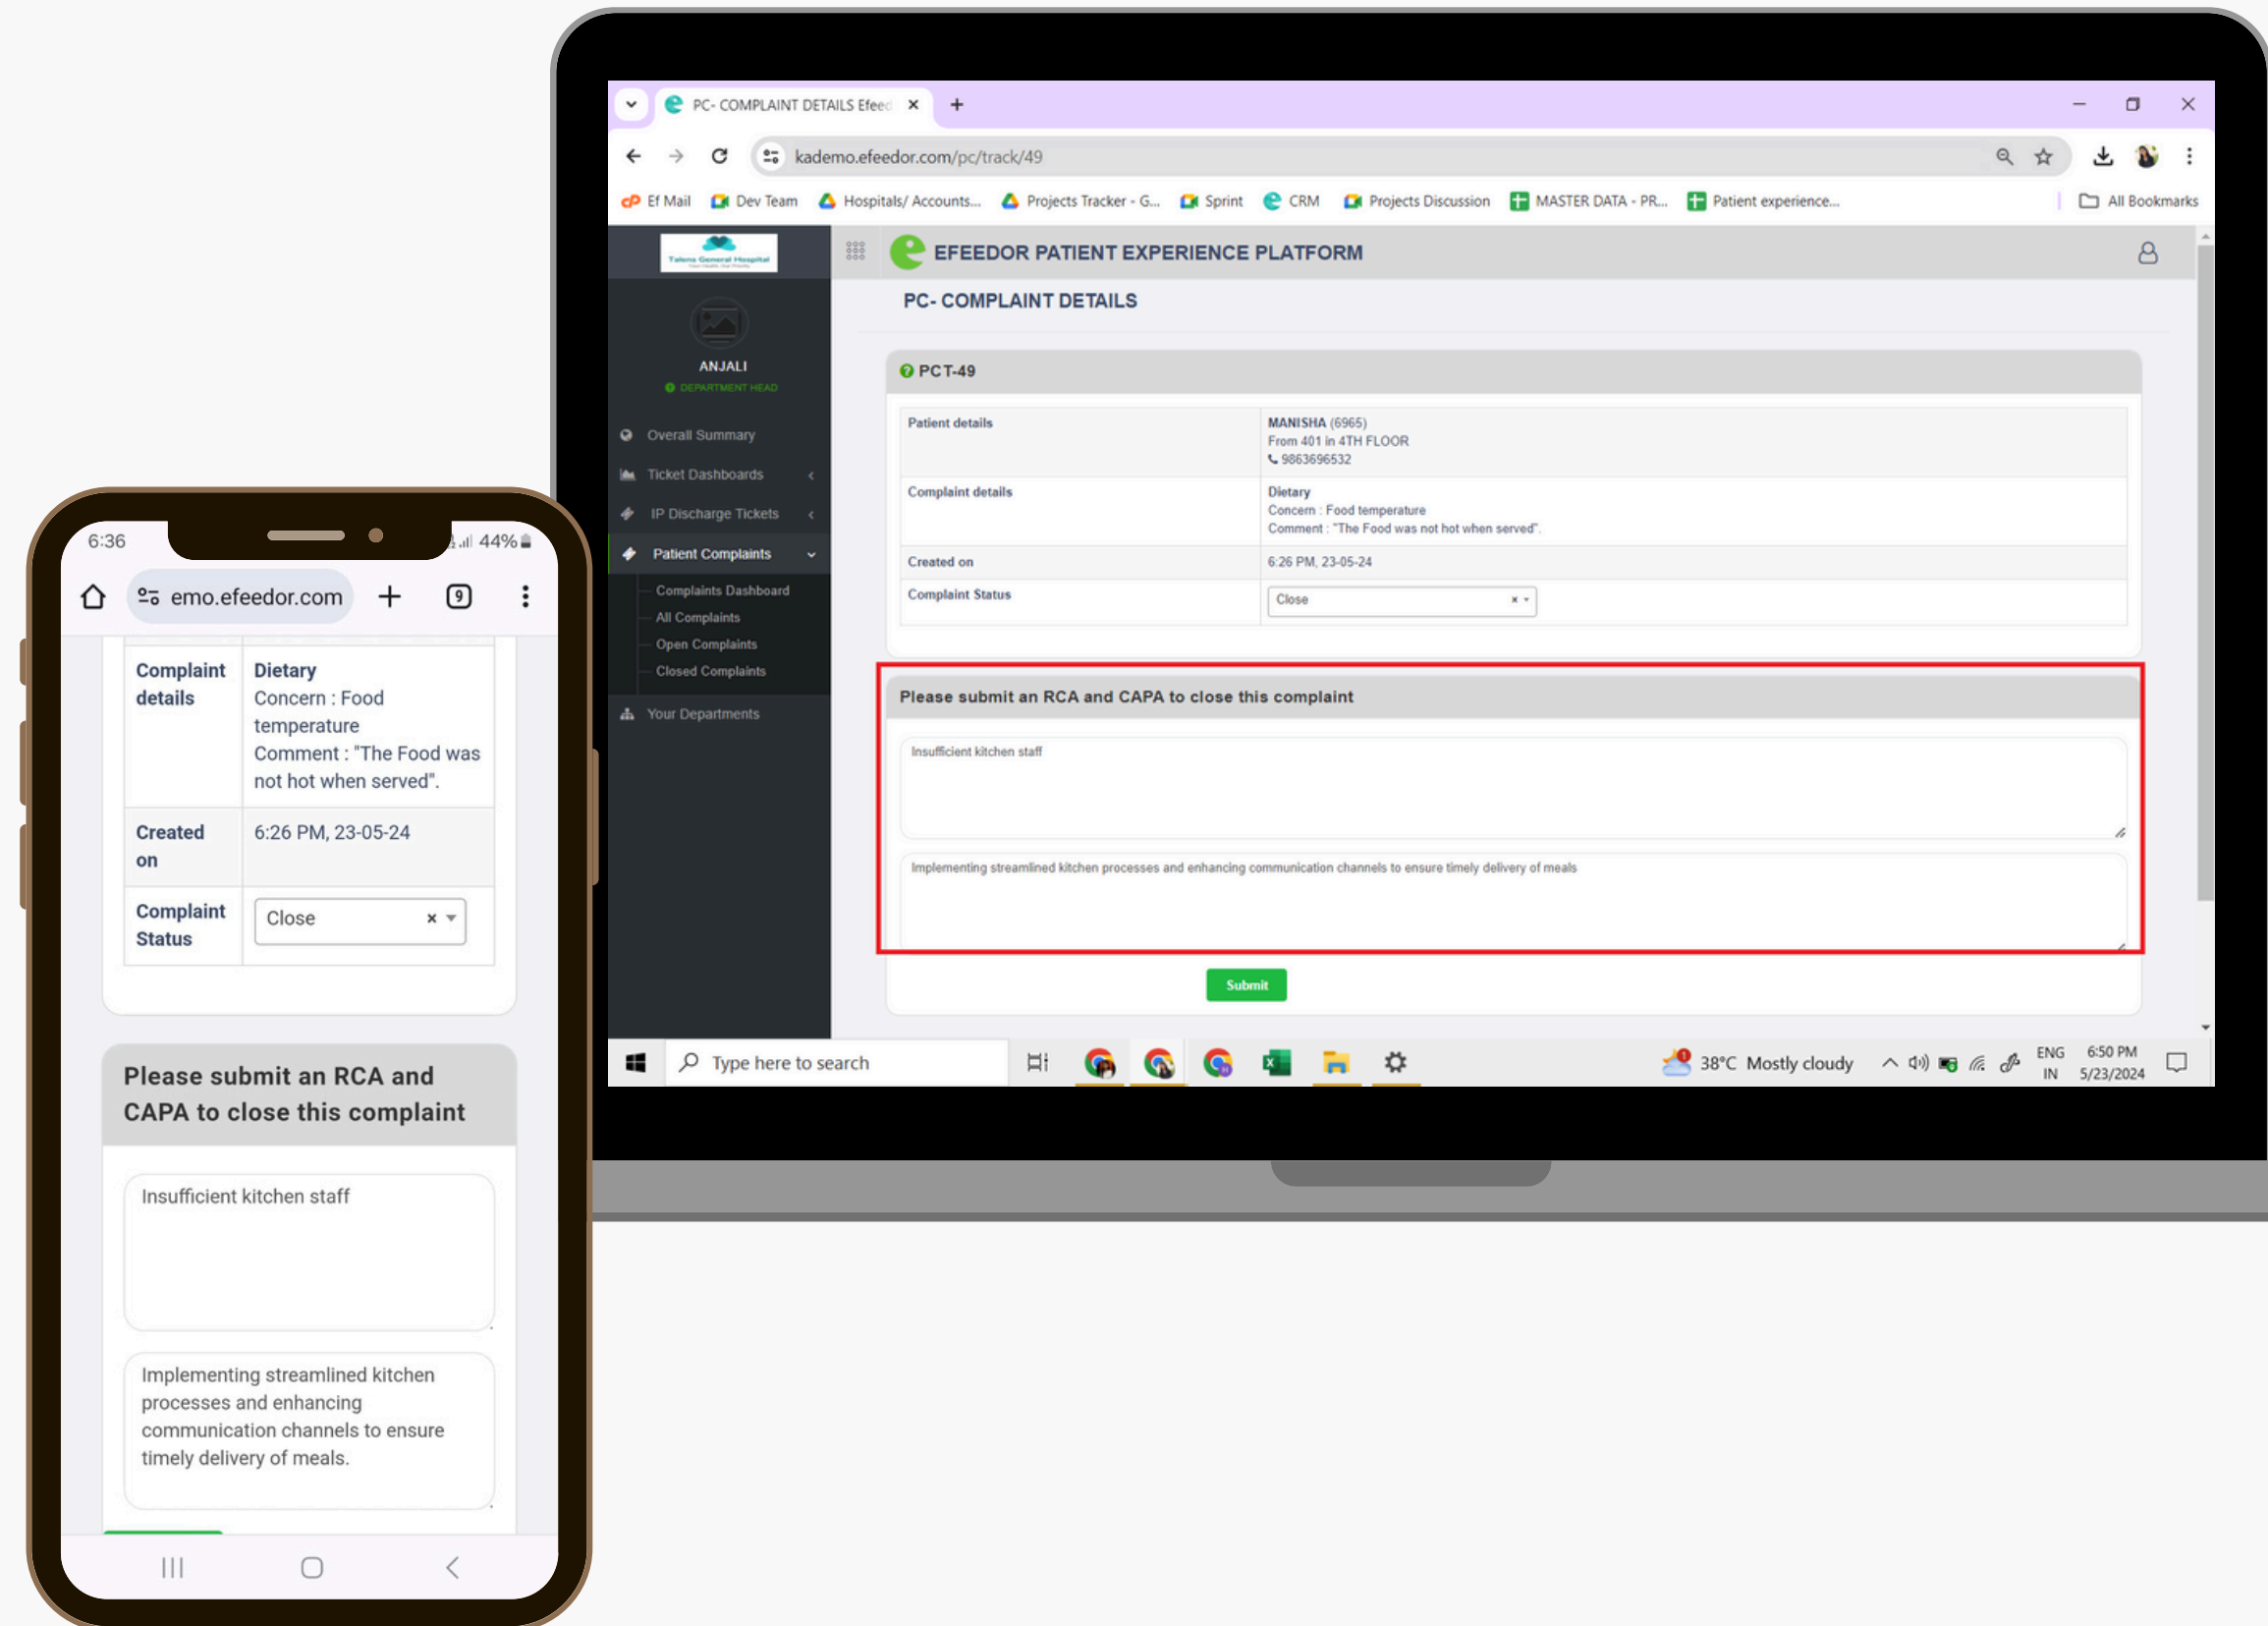

Once logged in, click on the ticket status to perform actions such as addressing, closing, or transferring the tickets to other departments.

CLOSING TICKETS WITH RCA AND CAPA

Upon selecting the close ticket option, provide the Root Cause Analysis (RCA) and Corrective and Preventive Action (CAPA) to close the tickets.

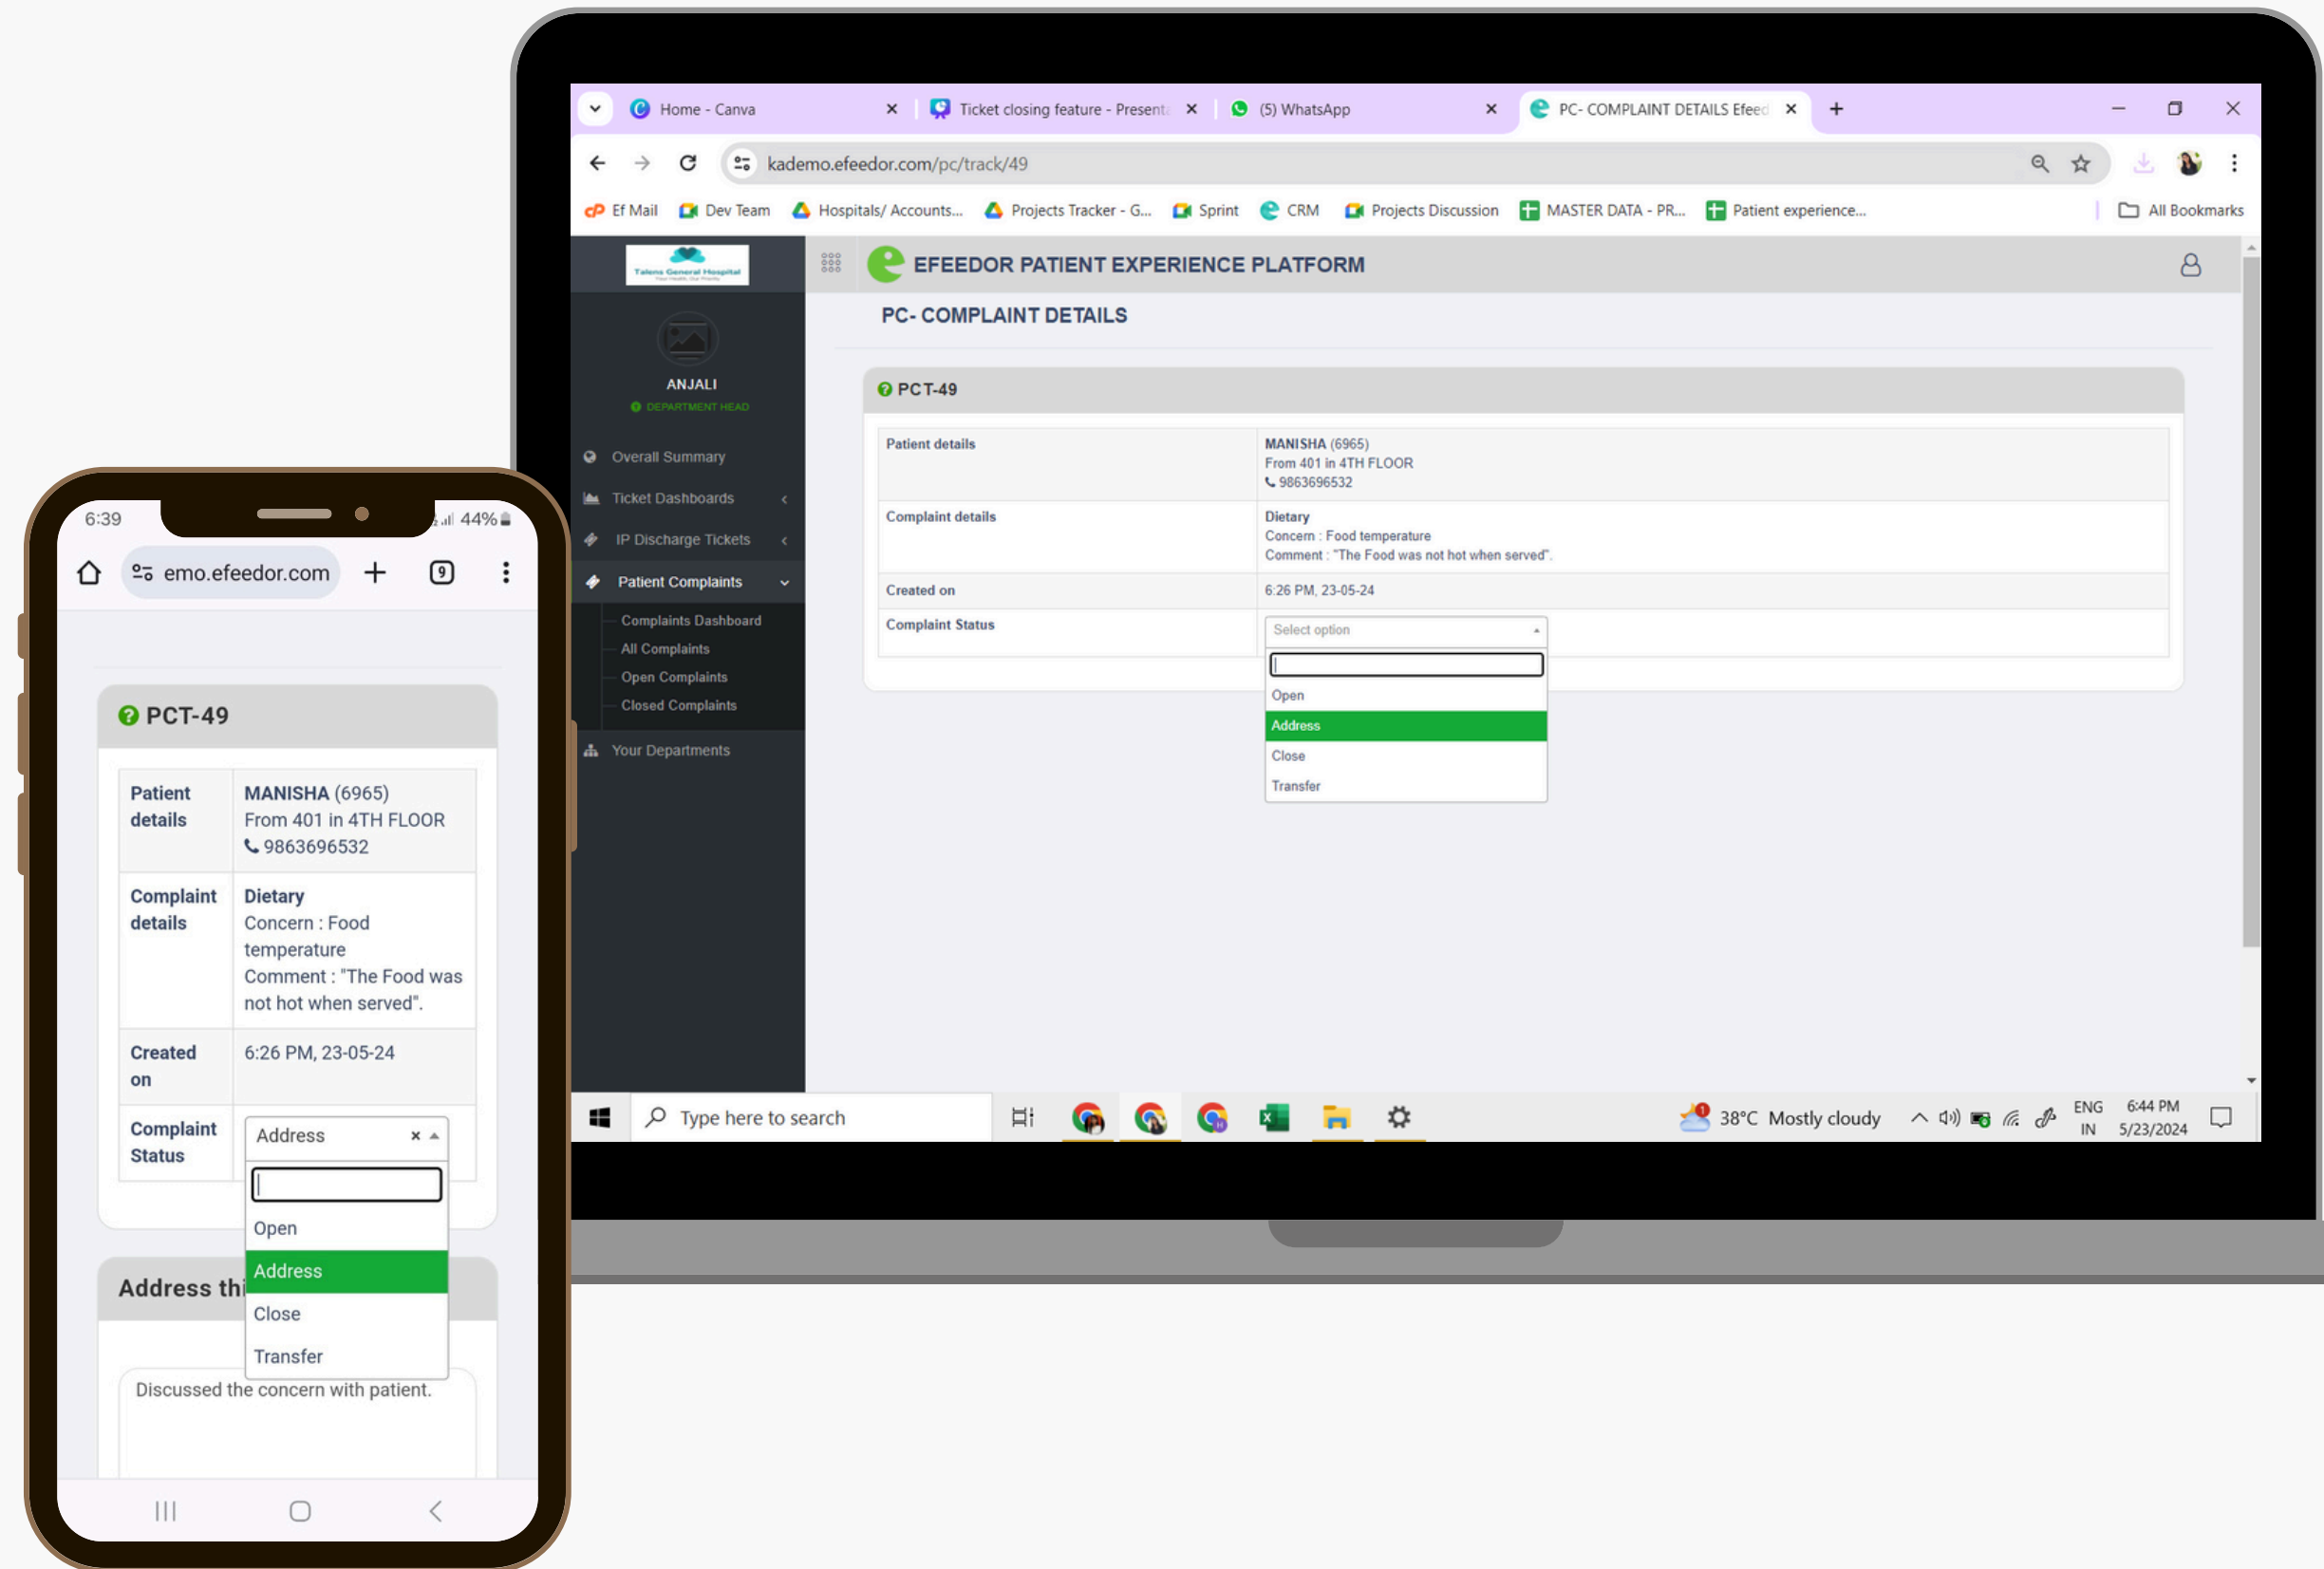

ADDRESSING THE TICKET

The "Address Ticket" feature allows you to start addressing a ticket if it cannot be closed immediately, enabling proactive steps towards resolving the issue or concern raised.

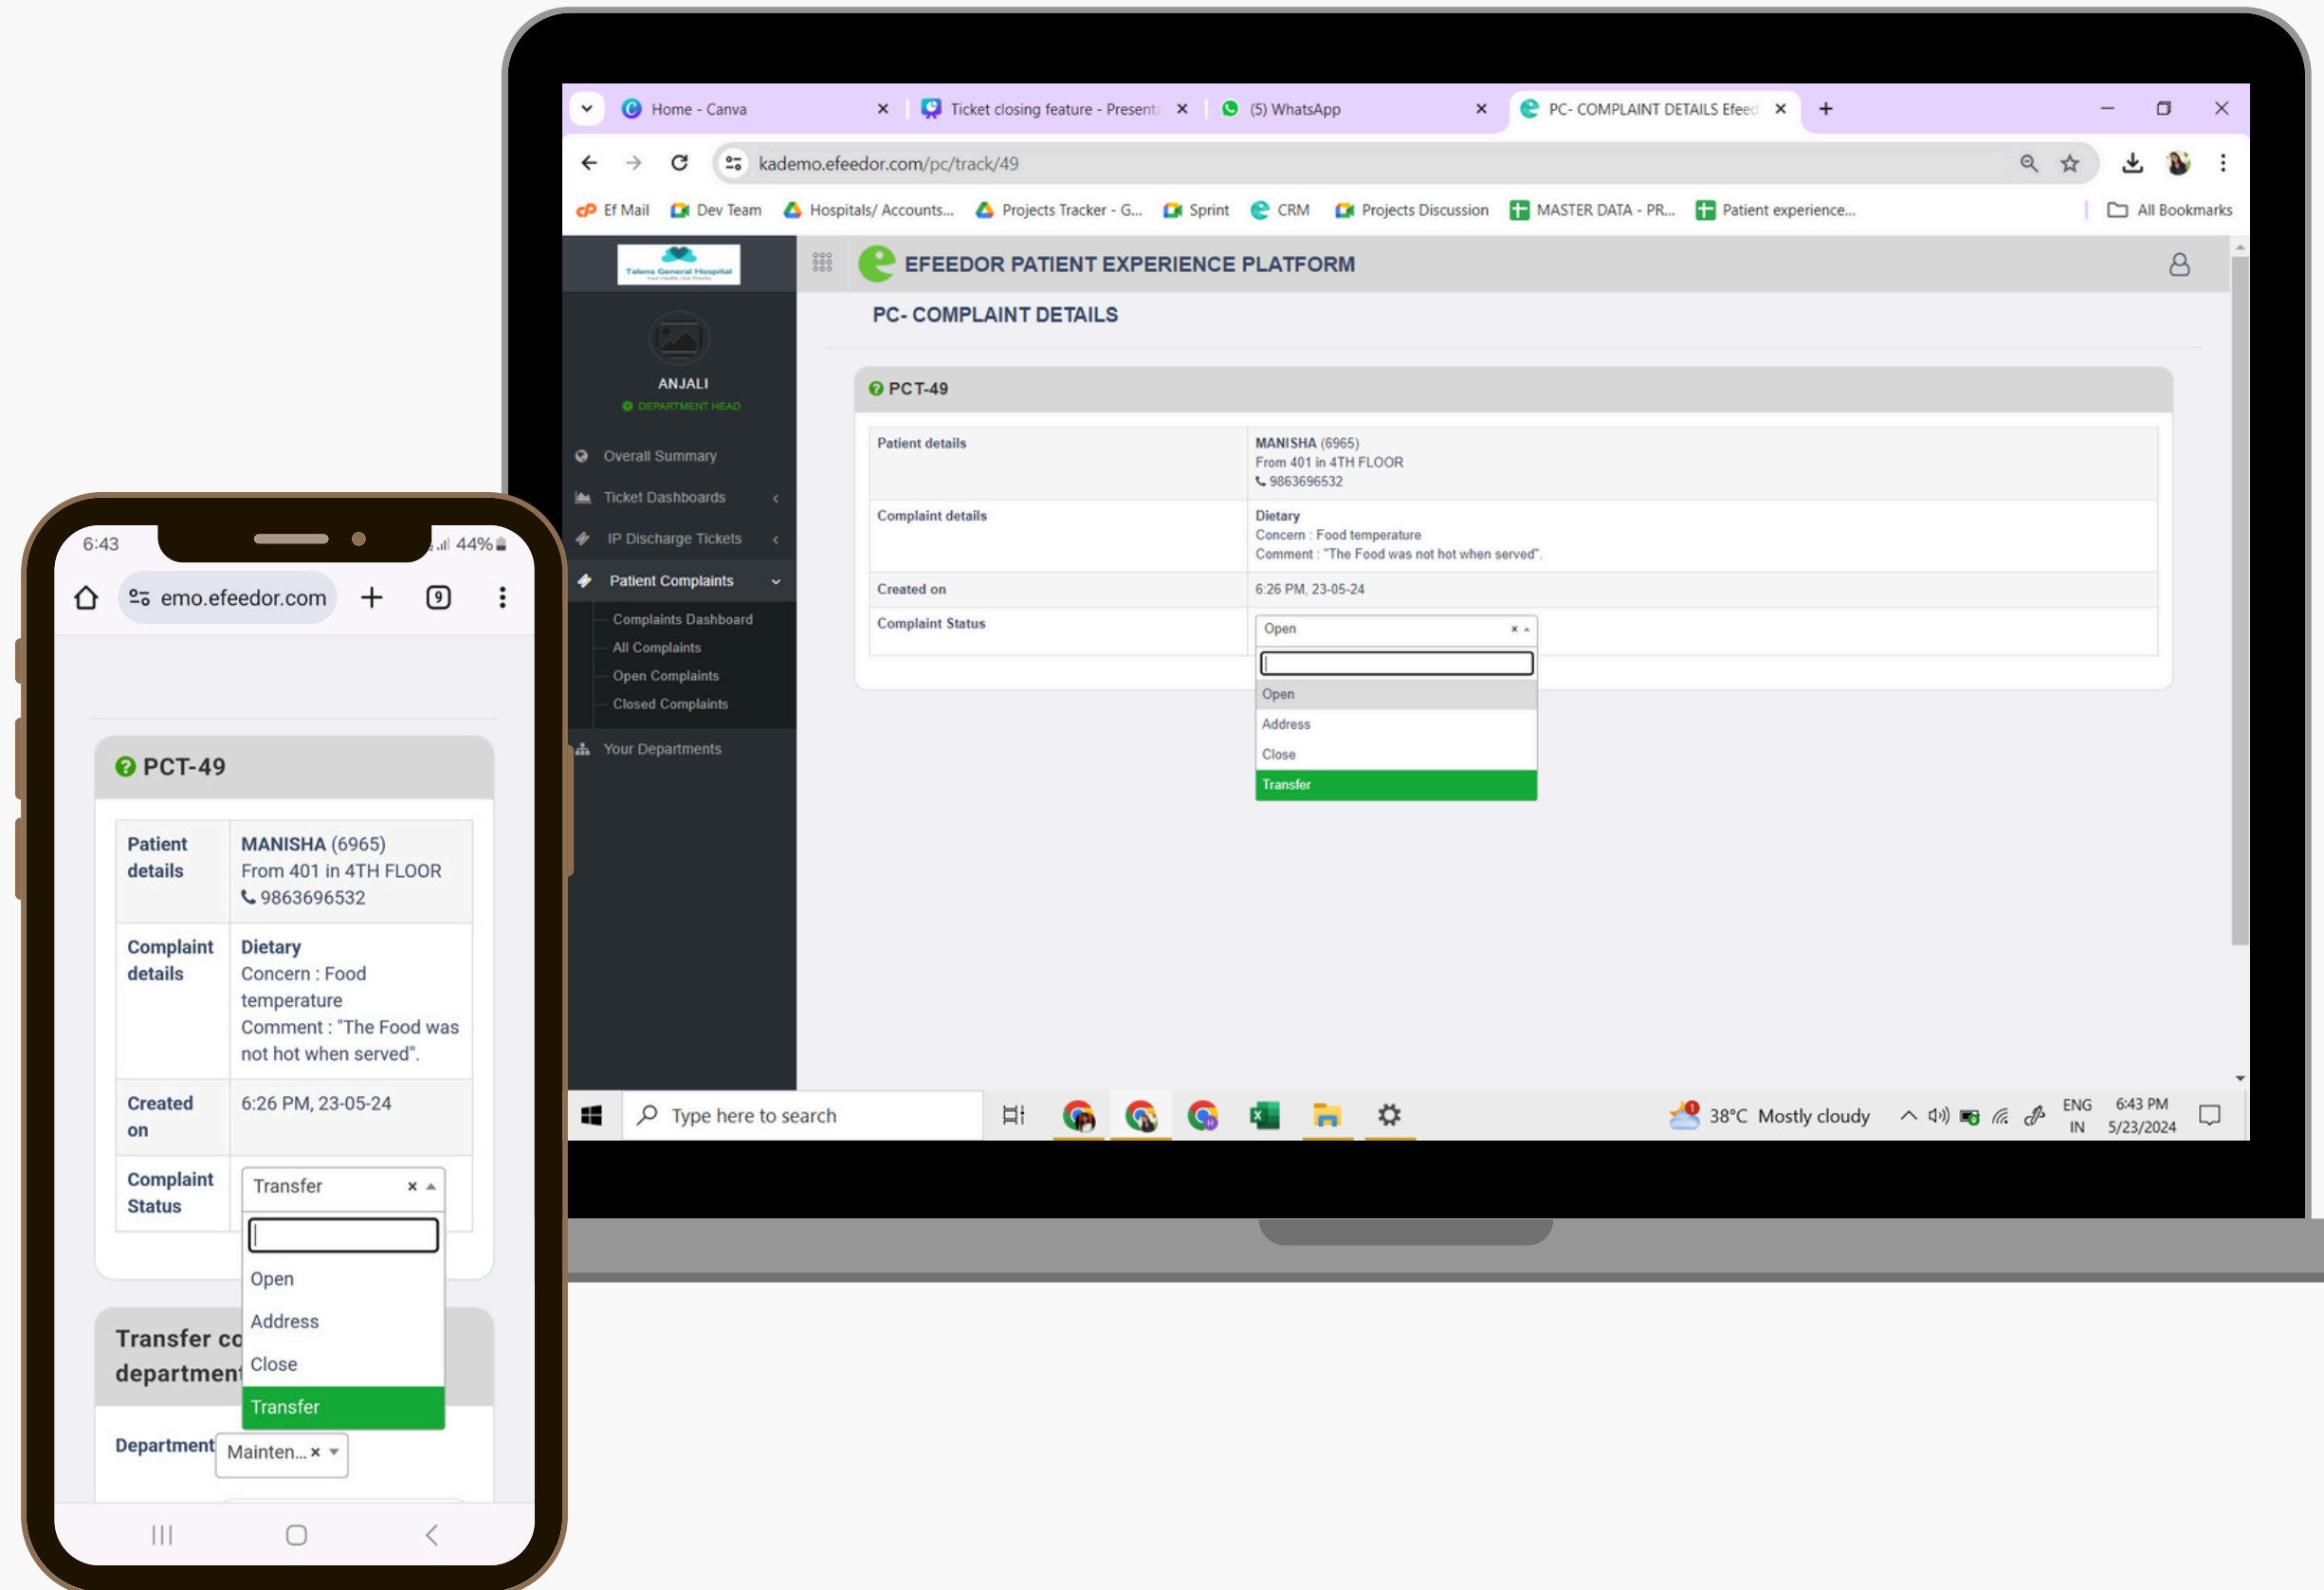

Ensure to use this feature only if you are not able to close the tickets.

TRANSFERRING THE TICKET

The "Transfer Ticket" feature allows you to send tickets to the appropriate department if they're outside your responsibility. This ensures issues are addressed by the right team, enhancing resolution efficiency and patient satisfaction.

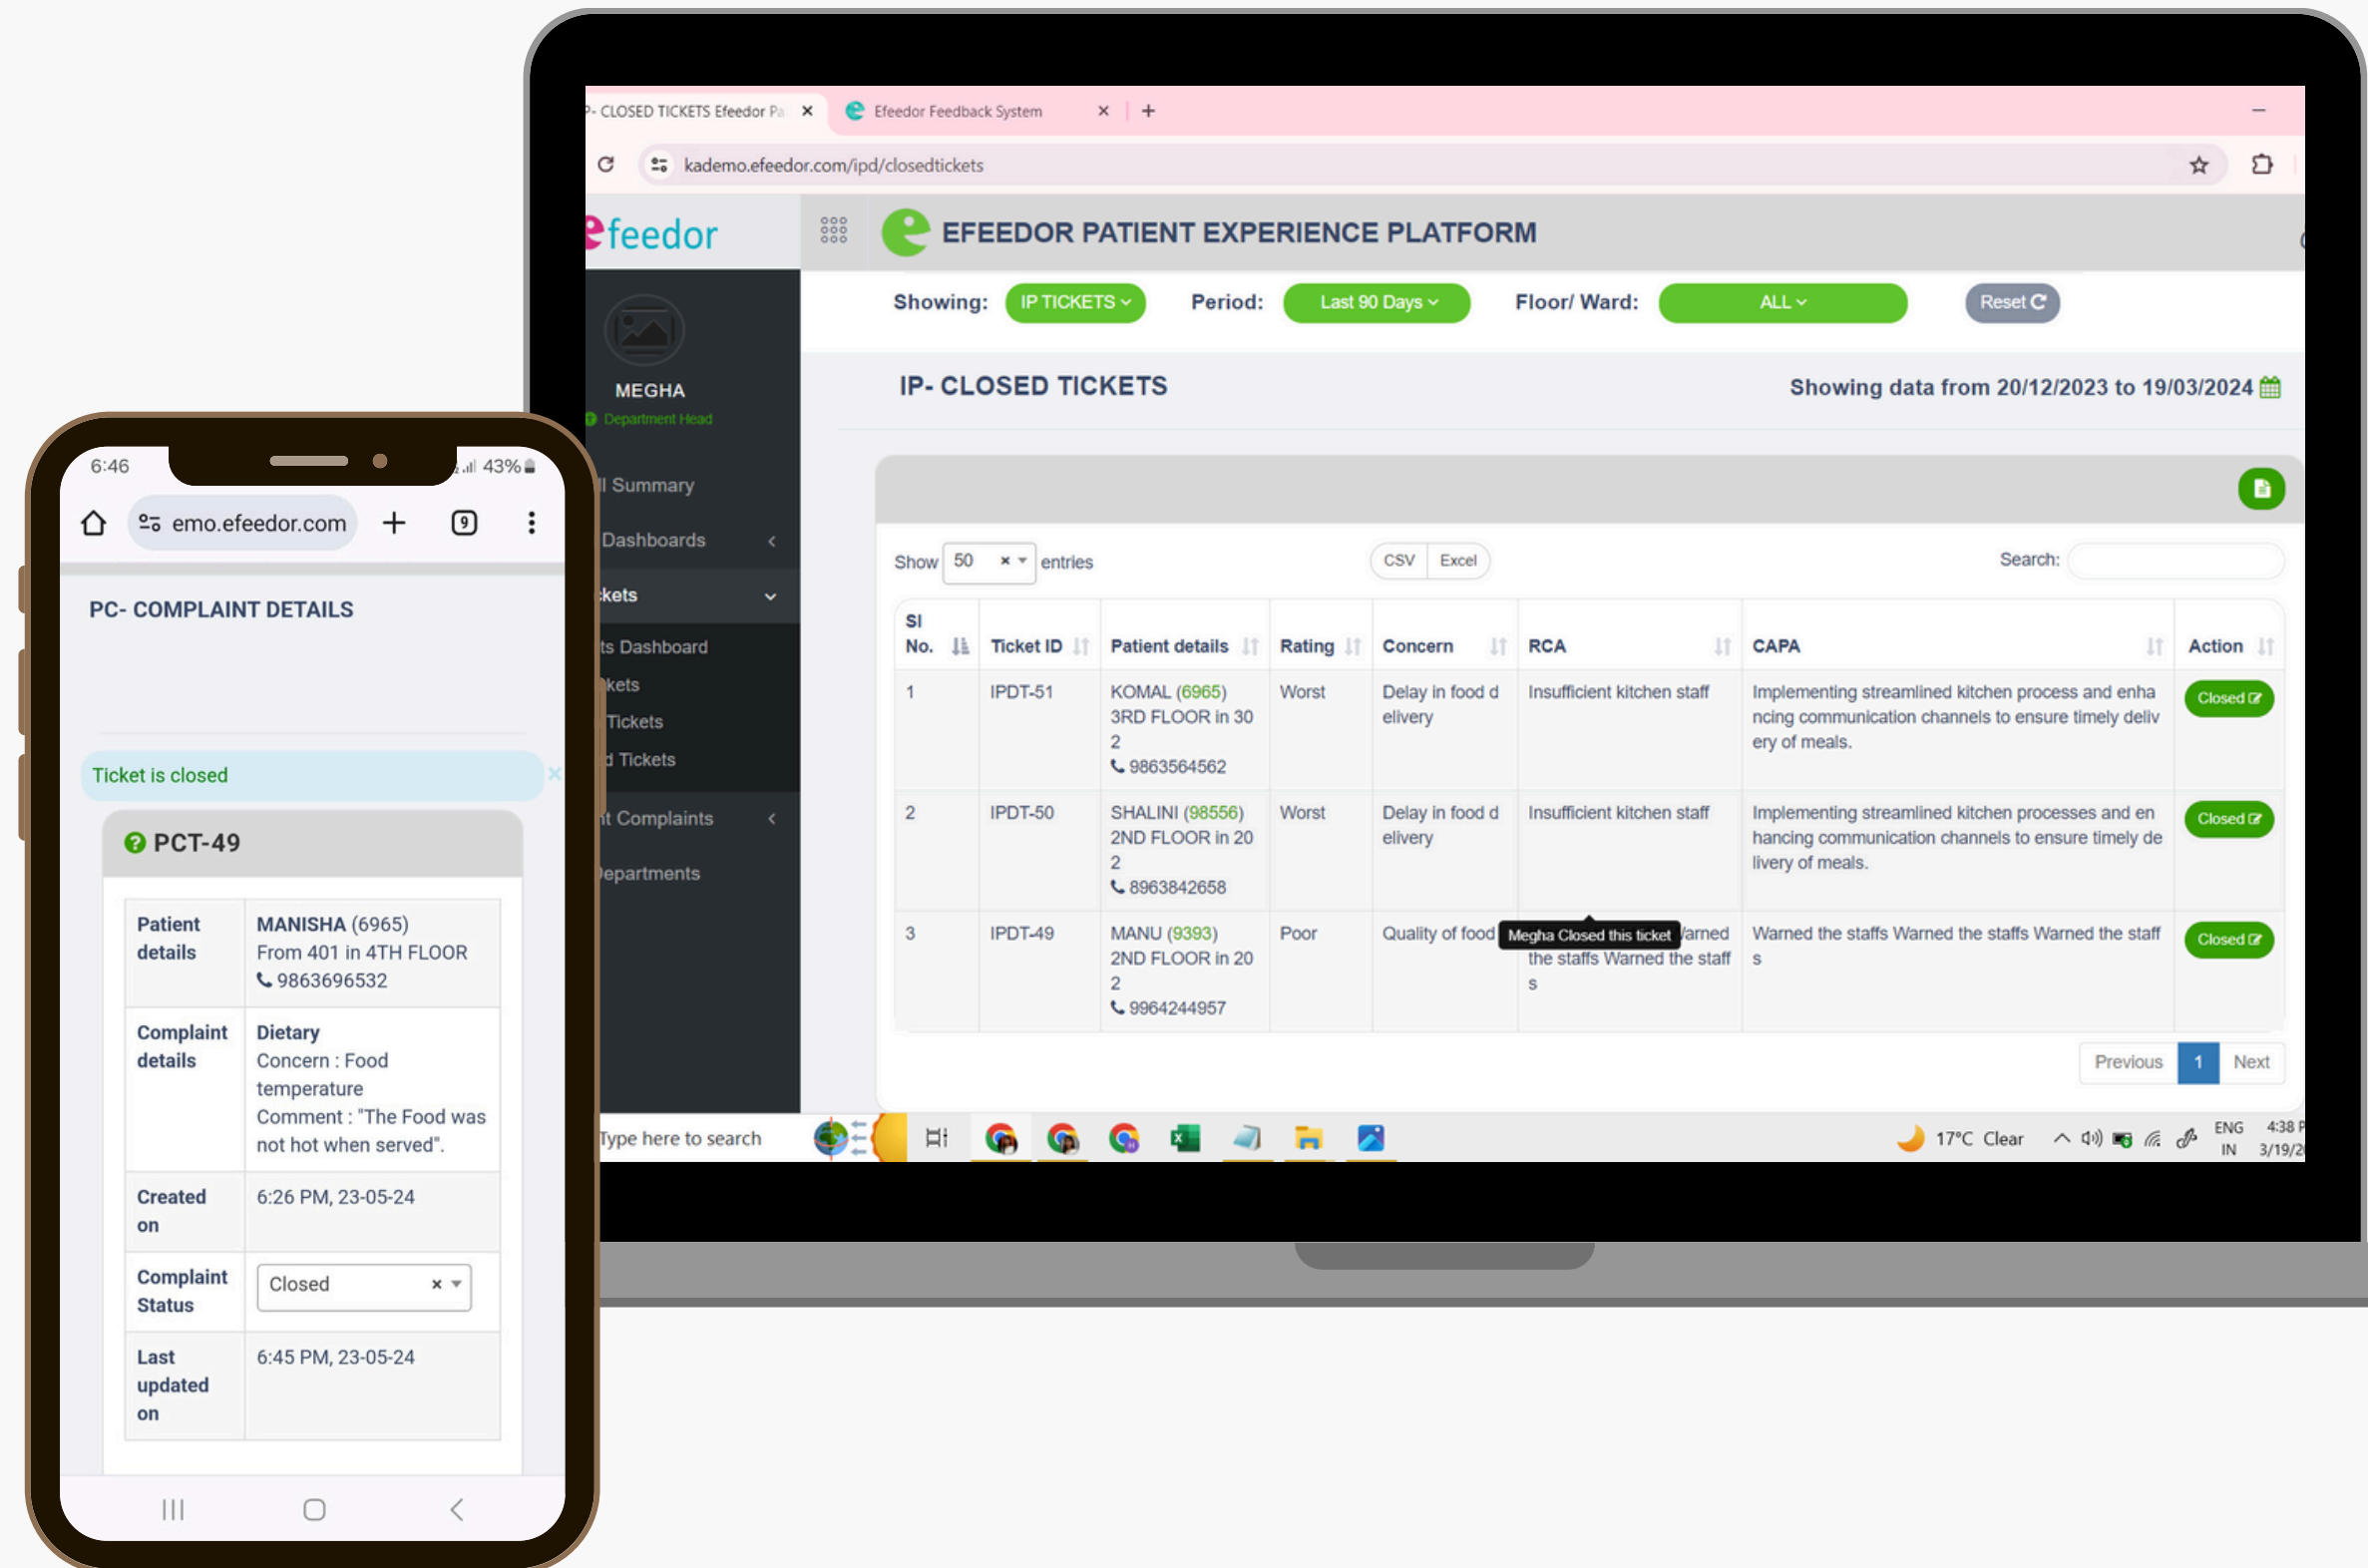

CLOSED TICKETS/ CAPA REPORT

This page displays the list of closed tickets along with the Root Cause Analysis (RCA) and Corrective and Preventive Actions (CAPA) taken to close the tickets.

Click on the green download button above the closed tickets list to download the data in Excel for internal reviews and accreditation purposes.

TIPS FOR DEPARTMENT IN CHARGES

- Once your details are added, you'll receive an SMS and email with the login link and credentials. If not, contact the System Admin.
- Use your login credentials to check if you can log into the application. You can change your password anytime in the Edit Profile section.
- Make sure to frequently check your emails and SMS to see if you have received any negative feedback, complaints, or requests for your department.
- If you're not receiving SMS and email notifications, reach out to your system admin to verify that your contact details are accurately added to the system and that alerts are enabled.
- Once you review the tickets, promptly address the issues internally or with the patients and ensure to close them in the system with RCA and CAPA.
- If you cannot view the entire ticket details in the tickets list page, click on the green plus icon to expand the ticket details.
- Only use the "Address Ticket" and "Transfer Ticket" features if necessary.
